Survey of brokers and underwriters 4

Market data 6

Definitions 6

Professional indemnity insurance 6

Professional categories 7

Operating models 8

Other notes 8

PartnerBASE and market data file 8

Finaccord 9

2.0 MARKET ANALYSIS 10

Introduction 10

Number, growth in number and segmentation of insurable enterprises 11

IT and business consulting firms constitute the largest segment of insurable enterprises 11

Other miscellaneous professional activities expanded the most from 2015 to 2019 11

Insurable enterprises are skewed towards the lowest annual fee income or turnover band..... 13

Market value, growth and segmentation 15

Insurance is compulsory for several professions and strictly enforced for lawyers and tax advisors..... 15

Premiums have grown little in recent years 15

The medicine and dentistry category generates by far the highest value of premiums..... 15

Take-up rates for professional indemnity cover vary a lot by category 15

Over a third of the total market value comes from small entities with annual revenues of up to EUR 1 million 17

Claims for medical negligence have been rising in recent times 19

The number of hospitals in Germany has reduced over the last two decades 19

Sham is a relatively new entrant to the market for hospital liability insurance..... 19

Providing cover for midwives has been another problematic area for German insurers 19

Almost all German professional indemnity business is underwritten in Germany itself..... 19

New business accounts for a comparatively high share of total business…..... 21

… and primary layer business substantially outweighs excess layer business 22

A rising proportion of professional indemnity insurance policies incorporate cyber cover…..... 22

… and a high proportion of the broker-intermediated market value can be classified as specialty business..... 23

Underwriter utilisation and market shares 24

One insurer is utilised by more than a half of brokers placing professional indemnity risks 24

The market leader is likely to control at least 20% of premiums…..... 25

… but it is up against around 40 other competing underwriters 26

Affinity schemes with professional and trade associations 27

More than a half of associations researched have an affinity scheme for professional indemnity cover…..... 27

… and most of these are intermediated by brokers 27

Funk has secured the most affinity scheme partnerships among brokers….....28
… and HDI among individual underwriters….....29
… although it is overtaken by AXA when considered on a group basis.....29
Other distribution channels.....30
Brokers.....30
Brokers of professional indemnity cover include both generalist and specialist intermediaries… 30
… with the latter featuring AiA (a subsidiary of MAF) and exali, among others.....30
Direct sales.....31
Many underwriters sell policies on a direct basis but generally not as an online-only proposition.....31
Online aggregators.....31
A few aggregators advertise professional indemnity insurance policies.....31
Other affinity partners.....31
This type of insurance is also on offer from some credit co-operatives and savings banks.....31
Market value forecast.....31
When adjusted for predicted inflation, the market value is likely to stagnate up to 2023….....31
… with premiums rising most in the medicine and dentistry category….....31
… and among larger entities with professional fees of more than EUR 20 million.....33
