

TABLE OF CONTENTS

0.0 EXECUTIVE SUMMARY	1
<i>Consumer-facing organisations establish partnerships with coalition loyalty programs for several reasons.....</i>	3
<i>Coalition loyalty programs will evolve in a variety of different ways in future years</i>	3
<i>... and at least ten organisations can be identified as likely innovators in this sector.....</i>	3
1.0 INTRODUCTION	5
What is this report about?	5
<i>Worldwide, over 2 billion consumers are likely to be members of at least one coalition loyalty scheme.....</i>	5
Rationale.....	5
<i>At an international level, coalition loyalty programs have proliferated in number during recent years.....</i>	5
<i>...and make attractive affinity partners for a variety of reasons.....</i>	5
<i>...with their allure having been recognised most frequently by payment card issuers</i>	5
Definitions	6
Coalition loyalty programs	6
<i>A variety of different types of scheme fit the definition of a coalition loyalty program</i>	6
<i>... although other structures are out of scope as they are unlikely to generate loyalty.....</i>	6
Program currency	7
Methodology	7
<i>Finaccord's research covers 235 leading coalition loyalty programs active across multiple locations.....</i>	7
Interactive CoalitionBASE.....	9
Finaccord	9
2.0 GLOBAL PROGRAM OVERVIEW	10
Introduction	10
Launch history and growth of coalition loyalty programs	10
<i>1999 and 2010 have been the busiest years for coalition loyalty program launches thus far</i>	10
<i>... with programs from outside of the airline and hospitality sectors having become increasingly apparent... ..</i>	11
<i>...although, with airline frequent flyer programs still claiming the most members overall</i>	12
<i>The total membership of coalition programs is likely to have exceeded 2 billion for the first time during 2015.....</i>	13
<i>Five programs, including PINS and Plenti, have been launched since the beginning of 2014</i>	15
Total membership of coalition loyalty programs.....	20
<i>The coalition schemes investigated have an average membership of almost 11.4 million.....</i>	20
<i>Some of the programs with most members are also those that have been established for longest.....</i>	21
<i>... although a few introduced more recently are catching them up... ..</i>	21
<i>... and Max Get More has become the largest as a result of its unique operating model.....</i>	21
Consumer penetration benchmarking of coalition loyalty programs	25
<i>There is little apparent relationship between penetration and longevity of coalition loyalty programs</i>	25
<i>Four schemes are used by over 60% of the total adult population of the countries in which they operate.....</i>	25
<i>... and another five by more than 50%</i>	25
Approaches to currency earning and redemption	31
<i>Currency-earning partners are more numerous than currency-redemption partners in most cases... ..</i>	31
<i>... as many program owners prefer to focus currency redemption on their own commercial propositions... ..</i>	32
<i>... although in a minority of cases, currency-earning and currency-redemption partners are identical</i>	32
<i>Credit cards and hospitality expenditure are the most common categories for earning currency.....</i>	33
Co-branded payment cards associated with coalition loyalty programs	35
<i>Co-branded payment cards have been developed for close to three quarters of schemes analysed.....</i>	35
<i>For one program, co-branded payment cards are available across 24 countries.....</i>	35
<i>20 programs lacking a co-branded product allow members to earn currency via unbranded payment cards.....</i>	35
<i>American Express, Barclays and Citigroup are the most frequently used card-issuing groups... ..</i>	36
<i>... albeit globally, affiliations are spread across a very wide range of card issuers</i>	36
<i>By number of affiliations with co-branded cards, MasterCard has a narrow lead over Visa.....</i>	37

GLOBAL COALITION LOYALTY PROGRAMS

...with American Express being particularly strong among programs originating from the airline sector.....	37
Future directions for coalition loyalty programs	38
Several key trends will characterise the future development of the market for coalition loyalty programs	38
The involvement of major retail brands in coalition loyalty programs rose sharply between 2010 and 2014.....	39
MySchool MyVillage MyPlanet has distinguished itself for its commitment to social responsibility.....	40
The potential for coalition loyalty programs is finally being realised in the US.....	40
... with Sports Loyalty International planning launch of a ground-breaking new initiative	40
Coalition Rewards has advocated a move towards 'shopper flyer programs' (SFPs).....	40
... which is significant given the high profitability often generated by airline frequent flyer programs	41
