Other reports in this series	9
Other reports about commercial non-life insurance in the UK	9
2.0 MARKET ANALYSIS	11
Introduction	11
Trends from 2012 to 2016	12
Segmentation by broad category	12
<i>Commercial lines premiums contracted by over GBP 1 billion between 2012 and 2016.</i>	12
<i>... with only two out of five broad categories of business displaying any growth</i>	13
Segmentation by product class	15
<i>Across the 18 product classes in scope, trends in premiums have differed greatly in recent years.</i>	15
<i>... with cyber business having advanced most rapidly followed by political risk insurance</i>	16
Segmentation by customer size	18
<i>The market segments quite evenly across five customer size segments.</i>	18
<i>... although premiums contracted in all of them between 2012 and 2016</i>	19
Segmentation by customer activity	21
<i>The transportation (non-air) segment is that which generates the highest premiums in the UK.</i>	21
<i>... followed by the retail / wholesale distribution and professional services segments</i>	21
<i>Only in the healthcare and life sciences segment did premiums move up between 2012 and 2016</i>	23
Forecasts to 2020	26
Segmentation by broad category	26
<i>Total commercial lines premiums are expected to grow in nominal terms between 2016 and 2020.</i>	26
Segmentation by product class	28
<i>... with the cyber class continuing to achieve by far the highest growth rate</i>	28
Segmentation by customer size	30
<i>Premiums are forecast to rise most rapidly among medium-sized customers</i>	30
Segmentation by customer activity	32

Only in the aerospace segment are premiums likely to decline in value from 2016 to 2020.....32
