1.0 INTRODUCTION	3
What is this report about?	3
<i>Finaccord's study breaks down individual country markets into 13 professional categories</i>	3
<i>... with a number of other key segmentations also provided</i>	3
Rationale	3
<i>This series of reports delivers up-to-date research about a complex, multi-faceted insurance sector</i>	3
<i>... with affinity schemes researched in detail through the associated PartnerBASE dataset</i>	4
Methodology	4
Survey of professional and trade associations	4
Survey of brokers and underwriters	4
Market data	6
Definitions	6
Professional indemnity insurance	6
Professional categories	7
Operating models	8
Other notes	9
PartnerBASE and market data file	9
Finaccord	9
2.0 MARKET ANALYSIS	11
Introduction	11
Number, growth in number and segmentation of insurable enterprises	12
<i>The miscellaneous category of other professional sectors is the most heavily populated in the US</i>	12
<i>... albeit the number of IT and business consulting enterprises is that which has expanded most rapidly</i>	13
<i>... and growth in number of enterprises is most apparent among the largest firms</i>	14
Market value, growth and segmentation	16
<i>The total market for professional liability cover has recorded modest growth in recent years</i>	16
<i>... having been held back somewhat by a decline in the very large medical malpractice segment</i>	16
<i>Other than medicine and dentistry, the legal services category generates the highest value of premiums</i>	16
<i>More than three quarters of all insurable enterprises are likely to have taken out professional liability cover</i>	16
<i>... as a result of the advanced culture of litigation that permeates the US</i>	16
<i>About half of premiums are paid by enterprises with annual fee income or turnover above USD 20 million</i>	18
<i>Some US states stipulate that medical professionals must secure a minimum level of liability insurance</i>	20
<i>... although most professional enterprises are not actually compelled to acquire cover</i>	20
<i>A significant proportion of the US market is dealt with by non-domestic underwriters</i>	20
<i>... and approximately one sixth of total premiums are due to new business</i>	22
<i>The value of primary layer business is several multiples higher than that of excess layer business</i>	23
Underwriter utilisation and market shares	24
<i>Two underwriters are used for professional liability insurance by more than a half of brokers researched</i>	24
<i>... and the combination of ACE with Chubb will see it overtake AIG in this analysis</i>	24
<i>There is a very long tail of small underwriters active in the US market</i>	24
<i>Even the market leader is unlikely to command a market share of premiums of more than 7%</i>	25
<i>... with those outside of the top 15 together accounting for up to 65.5% of the market</i>	25
<i>Including MGAs and RRGs, there are over 90 underwriters of professional liability cover in total</i>	26
<i>... although some international insurers prefer to avoid the US altogether</i>	27
<i>Berkshire Hathaway and The Doctors Company lead the market for medical malpractice insurance</i>	27
<i>... and eight of the top ten underwriters in this sphere are specialists</i>	28

PROFESSIONAL INDEMNITY INSURANCE IN THE USA

<i>In non-medical professional liability insurance, Travelers was the probable market leader in 2015</i>	29
<i>... although it may be overtaken by the combination of ACE and Chubb in 2016</i>	29
<i>There are few specialist underwriters focusing purely on architecture, D&B and engineering risks</i>	29
Affinity schemes with professional and trade associations	31
<i>Most affinity partnerships with associations are intermediated by a single external broker</i>	31
<i>... for which Aon holds the most such relationships</i>	32
<i>Among scheme underwriters, The Hartford is followed by AIG, Axis, Liberty and Zurich</i>	33
Other distribution channels	34
Brokers	34
<i>Organising professional liability cover is an important activity for numerous brokers</i> ..	34
Direct sales.....	35
<i>... albeit few underwriters sell it directly (as opposed to via their agents)</i>	35
Online aggregators	35
<i>This type of insurance can also be acquired from online comparison sites</i>	35
Other affinity partners	35
<i>... plus a handful of major banks and sports organisations</i>	35
Market value forecast.....	35
<i>A number of factors will drive further growth in premiums through to 2019</i> ..	35
<i>... including the increasing exposure of certain enterprise types to professional risks</i> ..	36
<i>... plus rising claims severity (if not claims frequency)</i> ..	36
<i>... and demand for cyber liability cover among many types of professional enterprise</i>	36
<i>A compound annual growth rate in premiums of just under 3% is forecast up to 2019</i>	38
