0.0 EXECUTIVE SUMMARY	2
<i>Over half of students with a bank account have signed up to a student banking package.....</i>	<i>2</i>
<i>Several banks appear to be punching below their natural weight in the student banking market.....</i>	<i>2</i>
<i>Students choose the provider of their main bank account in a variety of ways.....</i>	<i>2</i>
<i>Students are least satisfied with the personal contact received from a named banking manager.....</i>	<i>3</i>
<i>Among major banks, NatWest is generating the most satisfaction among its student customers.....</i>	<i>3</i>
<i>Well over a third of students have taken out a credit card and 12.0% are using a bank loan.....</i>	<i>3</i>
<i>The Student Loans Company accounts for the majority of student non-mortgage debt.....</i>	<i>4</i>
<i>On average, resp. believe that they will take almost five years to pay off their student debt....</i>	<i>4</i>
<i>... although the likely time to repayment clearly varies in accordance with the subject studied.....</i>	<i>4</i>
<i>A variety of dist. channels and interfaces are used for purchasing student contents insurance.....</i>	<i>5</i>
<i>... although this makes up only a small prop. of total student expenditure on insurance in the UK....</i>	<i>5</i>
<i>... with motor insurance, sports insurance and travel insurance also featuring prominently.....</i>	<i>6</i>
<i>... adding up to a total market for insurance bought by students that lies in excess of £500 million... </i>	<i>6</i>
1.0 INTRODUCTION	8
Research rationale	8
The report offers the most comprehensive research ever published on student financial services....	8
... with the market of immediate and strategic importance to both banks and insurance companies.	8
Research sample	9

2.0 STUDENT BANKING	21
Introduction	21
Over a quarter of students hold more than one current account.....	22
... with many of these classifying their main account as a specifically designated student account.	23
Two banking groups together account for over 45% of main current accounts used by students....	24
Almost a third of students choose their current account provider simply by following their parents..	25
Around one half of students make use of an overdraft facility linked to their current account.....	27
A majority of students intend to remain with their main bank once they have finished their studies..	28
Dissatisfaction is greatest in relation to personal contact received with a named bank. manager....	29
Student holdings of other banking products.....	32
Over a third of students carry a credit card although few have taken out a bank loan.....	32
Few students possess more than two relationships with banks or building societies.....	33
The market for secondary relationships is more fragmented than that for main student accounts...	34
Student debt	35
On average, respondents expect annual income of slightly over £4,000 during 2007.....	35
Around one in five students claim to possess no net non-mortgage debt whatsoever.....	36
The Student Loans Company accounts for an ave. of over 60% of non-mortgage student debt.....	37
On average, students expect to build up almost £10,000 in net debt while they study... ..	38
... which suggests that they may be prone to under-estimating the debt that they will accumulate..	38
More than a quarter of students are unsure how long it will take to repay their accumulated debts.	39

STUDENT METRICS: BANKING AND INSURANCE FOR STUDENTS IN THE UK

Students of physical sciences are the least optimistic about paying off their debts in rapid time40

3.0 BANK PERFORMANCE.....43

Introduction43

The satisfaction of students using each of the leading banks can be measured.....43

... both in overall terms and for eight key aspects of student banking service43

The results for banking performance are as robust as any that have hitherto been published44

Accessibility and opening hours of bank branches.....45

Breadth and quality of student financial services offered.....46

Ease of accessing overdraft or credit facilities47

Ease of contact with a student banking manager.....48

Frequency of contact with a student banking manager49

General conditions offered on student financial services.....50

Personal contact with a named student banking manager.....51

Quality of Internet banking service.....52

Overall satisfaction ratings53

Likelihood of changing main business current account54

Individual bank performance.....55

Abbey55

Alliance & Leicester56

Bank of Scotland.....57

Barclays.....58

Halifax.....59

HSBC.....60

Lloyds TSB.....61

Nationwide.....62

NatWest.....63

Royal Bank of Scotland.....64

Other banks.....65

4.0 STUDENT INSURANCE67

Introduction67

Student contents insurance68

Almost a half of students live in a privately rented flat or house during term.....68

Over one in four students in the UK claims to be covered by student contents insurance69

Both physical and remote interfaces can be used to promote student contents insurance...70

... with use of a variety of direct and intermediary distribution channels also in evidence71

Insured respondents spend an average of over £50.00 on student contents insurance.....72

... and a majority of uninsured students also suggest that they would be willing to take out cover...73

Other types of insurance bought by students.....74

Well over a third of students are likely to need insurance for a car, moped or motor cycle.....74

... and many students also own one or more relatively high value mobile or portable items.....75

... which can be insured in three main ways including stand-alone policies specific to the item75

Three out of ten students in the UK participate in active or contact sports.....82

... although only a minority of these are covered by any form of sports insurance83

Over a half of students have undertaken significant travel during the last year...84

... with most of these having been covered for travel risks during their most recent journey85

Student contents cover makes up only a small proportion of total student spend on insurance.....86

... with mainstream car insurance taking the lion's share87
