0.0 EXECUTIVE SUMMARY	2
<i>UK consumers are willing to research or acquire financial services online, especially insurance.....</i>	<i>2</i>
<i>...with high levels of usage across demographic segments.....</i>	<i>3</i>
<i>Nearly a quarter of consumers use seven or more websites when researching insurance online</i>	<i>3</i>
<i>The Internet is now the main distribution interface for personal loans, motor and home insurance.....</i>	<i>3</i>
<i>... taking sales away from direct insurers and banks.....</i>	<i>3</i>
<i>Switchers out-number new customers for mortgages, motor and household insurance.....</i>	<i>3</i>
<i>Aggregators' and brokers' websites are as well-recognised as direct providers</i>	<i>4</i>
<i>... although many consumers appreciate that aggregators and brokers offer something different.....</i>	<i>4</i>
1.0 INTRODUCTION	6
Finaccord.....	6
European consumer research	6
Aggregation.....	6
European market, partnership and bancassurance research	7
Research rationale	8
Online aggregation is having a major impact on financial services distribution	8
Interest in online aggregation is not limited to traditional providers of consumer financial services	8
The growth and influence of Confused.com and Moneysupermarket.com are beyond dispute... ..	8
... although the UK now endures a surplus of competitors in online aggregation and broking	9
Heavy spending on advertising has helped the industry leaders to stay ahead of the pack	9
The <i>Aggregation Metrics</i> research has been structured to test the appetite of consumers in Europe.....	9
2.0 SURVEY ANALYSIS.....	12
Introduction.....	12
Consumer propensity to purchase via the Internet.....	13
More than three quarters of consumers in the UK have bought books or music online.....	13
...and a majority have bought insurance via the Internet.....	13
Wide potential for online marketing and partnership programmes, especially in travel and utilities.....	16
Propensity to research and take out financial products over the Internet.....	17
<i>Banking products.....</i>	<i>17</i>
Most consumers use the Internet in one way or another when buying banking products	17
Longevity of Internet usage and household income affect propensity to buy banking products online ..	18
<i>Insurance products.....</i>	<i>20</i>
Two thirds of UK consumers use the Internet to research and / or buy insurance.....	20
The demographic trends for online insurance are similar to those for online banking	21
<i>Comparison with European average.....</i>	<i>23</i>
Number of websites visited prior to taking out financial products online	24
<i>Banking products.....</i>	<i>24</i>
Online customers are most likely to solicit details for banking products on three occasions... ..	24
<i>Insurance products.....</i>	<i>25</i>
...while nearly a quarter of consumers search seven or more sites for insurance.....	25
Mortgages.....	26
<i>Switching rates and brand new loans</i>	<i>26</i>
<i>Analysis of distribution interfaces used</i>	<i>27</i>
Telephone sales outstrip the Internet for mortgage distribution.....	27

<i>Analysis of distribution channels used</i>	30
Mortgage aggregators and brokers overtook direct lenders as a distribution channel during 2007	30
Personal loans	32
<i>Switching rates and brand new loans</i>	32
<i>Analysis of distribution interfaces used</i>	33
Use of the Internet is growing at the expense of face-to-face and telephone transactions	33
<i>Analysis of distribution channels used</i>	36
... but this has had little impact on the patterns for the actual distribution channels	36
<i>Comparison of distribution channels used by offline and online customers</i>	39
Loan aggregator / brokers and supermarkets both gain from the trend in favour of online distribution ..	39
Motor insurance	42
<i>Switching rates and brand new sales</i>	42
<i>Analysis of distribution interfaces used</i>	43
The Internet is now the dominant distribution interface for motor insurance in the UK.	43
<i>Analysis of distribution channels used</i>	46
... and has helped insurance aggregators and brokers to gain market share rapidly.....	46
<i>Comparison of distribution channels used by offline and online customers</i>	49
Insurance aggregators and brokers are dominant among online customers	49
Household insurance	52
<i>Switching rates and brand new sales</i>	52
<i>Analysis of distribution interfaces used</i>	53
Internet sales have risen at the expense of both the telephone and postal interfaces	53
<i>Analysis of distribution channels used</i>	56
... although this shift has affected distribution channels less than observed for motor insurance.....	56
<i>Comparison of distribution channels used by offline and online customers</i>	59
Banks fail to compete in the online market for household insurance but are strong offline	59
Summary of market attractiveness for online aggregators and brokers	62
Motor insurance is unquestionably the star product for online aggregation and broking in the UK.....	62
Switching increases the market available for aggregators and brokers.....	65
Switchers outnumber new customers for all products except personal loans	65
Online aggregators and brokers of financial services	66
<i>Recognition rates</i>	66
More than 90% of consumers know the leading brands of aggregators and direct providers.....	66
Consumer understanding of aggregation and broking concepts	69
<i>Brokers of financial services</i>	69
UK consumers display a high level of understanding of the role of brokers of financial services.	69
<i>Aggregators of financial services</i>	71
... but have a hazier idea of the exact definition and role of aggregators	71
3.0 APPENDIX	74
Research sample	74
The research embraces a total of 1,005 respondents in the UK	74
Research questionnaire	77
