TABLE OF CONTENTS

0.0 EXECUTIVE SUMMARY	2
The regional market was worth around €5.26 billion in gross premiums written in 2008.....	2
... with France and the UK combined accounting for almost 70% of this market value.....	2
Card protection insurance is the most commonly occurring type of enhancement.....	3
Programs are sometimes organised by centralised card issuers rather than individual distributors ...	3
Several providers have an identifiably international approach to the market.....	3
The market for insurance and assistance enhancements should continue to make progress.....	4
... as a consequence of the virtuous combination of a variety of factors... ..	4
... including the growing application of insurance and assistance to standard banking products... ..	4
... and changes in the demographic structure and general behaviour of consumers as a whole.....	4
France is probably the market in which cutting edge innovations are most apparent.....	5
1.0 INTRODUCTION	7
Rationale	7
Mainstream bancassurance markets are comparatively well documented.....	7
... but less attention has been given to insurance and assistance linked to banking products.....	7
Insurance and assistance linked to banking products: Europe's 'covert' bancassurance market?	7
Methodology	8
The research program identifies in excess of 7,250 insurance and assistance enhancements.....	8
... attached to over 2,200 banking products offered by the universe of 265 banking entities.....	9
The basic units of analysis for the report are the payment cards and bank accounts themselves.....	10

PartnerBASE™	14
2.0 REGIONAL OVERVIEW	19
Introduction	16
Debit cards	17
Across all eight countries, debit cards issued advance at an average rate of 2.2% per annum.....	17
Debit cards per capita reach high and low points in 2008 in the Netherlands and Italy respectively.....	19
Credit and other pay later cards	21
The UK now accounts for a regional share of less than 30% of credit and pay later cards issued ...	21
In terms of credit cards issued per capita, Spain could quite conceivably overtake the UK in 2009.....	23
Belgian and Dutch consumers show the least inclination to carry credit and other pay later cards ..	25
Average number of insurance and assistance policies per product	27
Insurance and assistance enhancements are most widespread among French banks.....	27
Relative weight of broad categories of insurance and assistance	28
Insurance and assistance preferences vary somewhat between the eight countries analysed.....	28
Penetration rates for insurance and assistance policies	30
<i>Card and cash cover</i>	30
Card protection insurance: commonplace in all countries other than Belgium and the Netherlands	30
ATM cash theft insurance: sometimes offered as an adjunct to wider protection policies.....	32
<i>Travel cover</i>	33
Travel accident insurance: packaged with over a half of banking products analysed in Spain.....	33
Travel health insurance: stand-alone policies are limited to a handful of examples in Italy.....	34
Travel assistance: penetration rates are close to one third in France and Spain.....	35

Travel inconvenience insurance: most CartaSi cards in Italy carry travel inconvenience cover	36
Comprehensive travel insurance: packaged automatically with many types of card in France	37
<i>Creditor, accident and health cover</i>	38
Creditor insurance (life / permanent disability): optional cover is standard in Ireland and the UK	38
Creditor insurance (temporary incapacity / unemployment): penetration rates are similar	39
Personal accident insurance: cover is offered for free in a minority of cases in Italy and Spain	40
Accidental death insurance: the regional average penetration rate reaches 16.5%	41
Health / hospital cash plans: offered by a number of banking institutions in Italy and Portugal	42
Health assistance: penetration rates are significant only in Italy and Portugal	43
Shopping cover	44
Purchase protection insurance: adopted to a greater or lesser extent by all Dutch card issuers	44
Price protection insurance: penetration rates lag far behind those for purchase protection cover	45
Extended warranties: examples of packaging are most visible in France and the UK	46
<i>Other types of cover</i>	47
Road assistance: almost 20% of products analysed in Portugal include this form of cover	47
Home assistance: while absent in four countries, penetration rates are relatively high in Portugal	48
Personal liability insurance: packaging with banking products occurs only in Italy and Portugal	49
Legal expenses insurance / assistance: rates of provision are modest in all territories	50
Mobile telephone insurance: inclusion within card protection cover boosts penetration in France	51
Identity protection insurance / assistance: subject to significant development only in the UK	53
Car hire insurance: a minor feature of the market in France, Italy, the Netherlands and Spain	54
Corporate liability waiver insurance: included with over 25% of all business and corporate cards	55
Other miscellaneous insurance: numerous other types of enhancement are in evidence	56
... ranging from computer laptop theft insurance and computing assistance	56
... to Internet delivery insurance and Internet purchase protection insurance	56
... and insurance for missed events, mobile gadgets and winter sports	57
In France, customers with Carrefour's <i>PASS</i> card can choose from a broad array of policies	57
Approximate market size	59
It is necessary to make a variety of assumptions when computing the market size	59
Travel accident insurance and purchase protection insurance are the most common policy types	59
The regional market was worth approximately €5.26 billion in gross written premiums in 2008	62
... and is likely to be growing at an average annual rate of between 5% and 10% overall	62
Insurance and assistance premiums per capita are highest in the UK and lowest in Belgium	64
Card-related creditor insurance and card protection insurance are the highest value segments	66
Consumer metrics	69
Finaccord's pan-European consumer research also yields valuable insights into the market	69
<i>Key consumer metrics for card protection insurance</i>	70
Card protection insurance paid for separately enjoys the highest penetration in France	70
<i>Key consumer metrics for creditor (card payment protection) insurance</i>	72
Insurance protecting credit card payments is most widely held by French consumers	72
... although acquisition rates in a paid-for format are most advanced in the UK	72
<i>Key consumer metrics for travel insurance</i>	75
French consumers are most likely to rely on travel insurance linked to their credit card	75
<i>Key consumer metrics for other forms of insurance and assistance</i>	78
In the UK, the scope exists to increase free packaging with credit cards and current accounts	78
3.0 BELGIUM	81
Introduction to the banking and payment card sectors	81
The aftermath of the 'credit crunch' brings about fundamental change to the banking sector	81
Numerous medium-sized and small banking ventures challenge the four largest institutions	81
Credit and other pay later cards grow at double the rate of debit cards in Belgium	82
Insurance and assistance linked to payment cards and bank accounts	84
<i>Broad types of cover</i>	84

Travel-related cover is most commonly packaged with payment cards and bank accounts	84
<i>Specific cover penetration</i>	85
... albeit this often appears in the form of travel accident insurance or travel assistance	85
Operating models	87
Cardif, ING Insurance and KBC Insurance are active as captive underwriters in Belgium	87
Partner market shares	89
AIG Europe is the most prolific partner for both travel accident and purchase protection policies	89
4.0 FRANCE	92
Introduction to the banking and payment card sectors	92
The concentrated French consumer banking market is experiencing further consolidation... ..	92
... as a result of the link between the Banques Populaires and the Caisses d'Epargne	92
... and the acquisition of the Belgian and French banking arms of Fortis by BNP Paribas	92
Carte Bleue and MasterCard play a key role in insurance and assistance enhancements	92
The popularity of co-branded and private label cards boosts credit and other pay later products	94
Insurance and assistance linked to payment cards and bank accounts	97
<i>Broad types of cover</i>	97
Card and cash protection is the most widespread category of cover in France... ..	97
<i>Specific cover penetration</i>	98
... with card protection insurance often embracing forms of mobile telephone insurance	98
Travel cover of one sort or another is carried by a majority of MasterCard and Visa cards	98
France also plays host to a variety of innovative enhancements to banking products	98
Operating models	100
France is characterised by the utilization of a very diverse range of operating models	100
Gras Savoye and SPB are influential as affinity brokers of insurance and assistance	100
Partner market shares	102
The Groupement Carte Bleue collaborates with several suppliers for travel-related cover	102
Gras Savoye and SPB are prominent as organisers of card protection insurance	102
A high number of providers compete in other major areas of insurance and assistance	103
5.0 IRELAND	106
Introduction to the banking and payment card sectors	106
A variety of banking institutions owned by foreign parents challenge the traditional incumbents... ..	106
Debit cards issued comprehensively outgrow credit and other pay later cards issued in Ireland... ..	107
Insurance and assistance linked to payment cards and bank accounts	109
<i>Broad types of cover</i>	109
Creditor and other accident and health covers are available most frequently in Ireland... ..	109
<i>Specific cover penetration</i>	110
... although card protection insurance achieves the highest overall rate of penetration	110
<i>Operating models</i>	112
Most schemes are organised in conjunction with single, external underwriters	112
... although Affinion International is used by Ulster Bank for its <i>ufirst</i> account	112
<i>Partner market shares</i>	114
CPP accounts for most of the main relationships available for card protection insurance	114
Several providers are active in card-related creditor insurance and comprehensive travel cover ..	114
6.0 ITALY	117
Introduction to the banking and payment card sectors	117
Four, or arguably five, retail banking groups lay claim to a genuinely nationwide network... ..	117
... although these are being challenged by an array of ambitious regional competitors... ..	117
... as well as several insurer-owned banks and banks falling under foreign ownership	117

Italy also plays host to a considerable number of specialised lending institutions...	117
... including central card issuing entities that promote their cards through distributor banks	118
Credit and other pay later cards issued overtook debit cards issued in Italy in 2007	119
Insurance and assistance linked to payment cards and bank accounts	121
<i>Broad types of cover</i>	121
Over one third of covers identified fall into the creditor and other accident or health category	121
<i>Specific cover penetration</i>	122
Combined insurance and assistance packages boost provision rates for individual types of cover	122
Operating models	124
Captive and joint venture underwriters play some part in the insurance and assistance sector	124
... although most enhancements to banking products are organised through a single underwriter	124
Partner market shares	126
CPP possesses an extensive client list although Affinion's Sentinel is the partner of CartaSi	126
Providers owned ultimately by French banks are most prominent in card-related creditor insurance	126
Four main providers are visible in the market for purchase protection insurance	126
Several important packages are managed by Assicurazioni Generali and Europ Assistance	126
7.0 NETHERLANDS	130
Introduction to the banking and payment card sectors	130
The integration of ABN AMRO and Fortis Bank brings about further market concentration	130
... albeit a number of smaller institutions offer an element of competition to the 'big three'	130
Most Dutch consumers remain apparently reluctant to carry credit and other pay later cards	131
Insurance and assistance linked to payment cards and bank accounts	133
<i>Broad types of cover</i>	133
The Dutch market is characterised by the relatively high presence of covers related to shopping	133
<i>Specific cover penetration</i>	134
Purchase protection insurance is the most commonly occurring enhancement to payment cards	134
Operating models	136
ABN AMRO elects to continue its joint venture arrangement with Aviva	136
Partner market shares	138
The Warranty Group benefits from its links with Comfort Card, LaSer Cards and Prime Line	138
The protagonists in comprehensive travel insurance are familiar international competitors	138
8.0 PORTUGAL	141
Introduction to the banking and payment card sectors	141
For a relatively small market, Portugal's retail lending sector remains comparatively fragmented	141
... although Cetelem and Groupe LaSer have agreed to combine their local subsidiaries	141
Credit and other pay later cards are gradually eroding the share of debit cards in Portugal	142
Insurance and assistance linked to payment cards and bank accounts	144
<i>Broad types of cover</i>	144
Banking products in Portugal are well-endowed with insurance and assistance enhancements	144
<i>Specific cover penetration</i>	145
Provision rates are significant across a range of different types of policy	145
Operating models	147
Captive underwriters are more influential in Portugal than in any other country reviewed	147
Partner market shares	149
... although non-captive providers also account for a number of significant relationships	149

9.0 SPAIN	152
Introduction to the banking and payment card sectors.....	152
The main wave of consolidation in Spanish retail banking has now taken place	152
Many of Spain's savings banks are characterised by an independent, entrepreneurial spirit.....	152
A number of overseas entrants play a significant role in the consumer finance sector	152
Spanish consumers shift decisively towards credit and other pay later cards	154
Insurance and assistance linked to payment cards and bank accounts.....	156
<i>Broad types of cover.....</i>	<i>156</i>
The Spanish market is oriented most strongly to insurance for card and cash protection... ..	156
<i>Specific cover penetration.....</i>	<i>157</i>
... although many payment cards also carry a free general accident insurance policy.....	157
Operating models.....	159
Several banking institutions make partial or exclusive use of captive underwriting entities... ..	159
Partner market shares	161
In terms of its raw number of relationships, Caser benefits from its ties with many savings banks	161
MBNA makes blanket use of ACE European Group for several types of cover	161
At least eight assistance companies compete for travel assistance mandates	161
Niche providers such as Autoclub Mutua, Legálitas and Reparalia are also visible.....	161
10.0 UNITED KINGDOM	165
Introduction to the banking and payment card sectors.....	165
The financial crisis is the main driver of rationalization of the UK consumer banking market	165
Credit and other pay later cards peak in 2005 although debit cards issued continue to grow	166
Insurance and assistance linked to payment cards and bank accounts.....	168
<i>Broad types of cover.....</i>	<i>168</i>
The ratio of covers to products analysed is higher in the UK than any other country considered ..	168
<i>Specific cover penetration.....</i>	<i>169</i>
Forms of insurance that must be paid for separately by customers are the most widespread	169
Operating models.....	171
Captive underwriters account for a significant proportion of all relationships identified	171
Partner market shares	173
CPP and Sentinel account for the vast majority of relationships for card protection insurance... ..	173
... with CPP also emerging as the most prolific partner in the domain of identity theft cover	173
At least eight non-captive underwriters are active in the market for card-related creditor insurance.....	173
.....	173
