

TABLE OF CONTENTS

0.0 EXECUTIVE SUMMARY	1
<i>The market for mobile telephone insurance is larger in value terms than that for mobile gadget cover</i>	2
<i>In relative terms, France, Ireland and the UK are the region's leading markets</i>	3
<i>Manufacturers are far more likely to offer policies alongside mobile gadgets than with mobile telephones</i>	4
<i>The aggregate value of mobile gadget and telephone cover combined may rise by close to 40% by 2014</i>	5
1.0 INTRODUCTION.....	6
What is this report about?	6
Rationale.....	6
<i>Most published data focuses disproportionately on the underlying consumer product markets... ..</i>	6
<i>... ignoring the fact that various market players can make large profits from insurance schemes</i>	6
<i>Evolving distribution channels both favour and compromise insurance provision</i>	6
<i>There is considerable scope for future expansion in most European countries</i>	6
Methodology	7
Manufacturer and retailer survey	7
<i>The survey extends to 1,020 manufacturers, network operators and other retailers.....</i>	7
Market data	7
Definitions	9
Extended warranties and insurance	9
<i>Extended warranties and insurance linked to consumer products come in a variety of formats</i>	9
<i>... and are frequently marketed to consumers under alternative titles</i>	9
<i>The underwriting emphasis of mobile telephone insurance differs from other types of policy</i>	9
Operating models	10
PartnerBASE™	10
Finaccord	11
2.0 REGIONAL OVERVIEW	14
<i>Mobile gadgets</i>	14
Introduction	14
Underlying market value and volume.....	15
<i>On average, the value of sales of mobile gadgets rose by almost 5% per annum between 2006 and 2010.....</i>	15
<i>... with the volume of sales advancing even more rapidly.....</i>	17
Manufacturer schemes for extended warranties and insurance	19
<i>Manufacturer programs are most widespread in Ireland and Italy</i>	19
<i>External partners working with manufacturers include Domestic & General, SPB and The Warranty Group.....</i>	20
Retailer schemes for extended warranties and insurance.....	23
<i>As a regional average, over a half of major retailers of mobile gadgets offer related insurance... ..</i>	23
<i>... although this figure is significantly higher in the case of specialist retailers of consumer electronics</i>	24
<i>Captive retailer programs are most widespread in Belgium and the Netherlands.....</i>	26
Risk coverage of all schemes for extended warranties and insurance	29
<i>Many mobile gadget insurance policies are still oriented solely to the extended warranty element</i>	29
Market value for mobile gadget insurance.....	31
<i>The total market was worth almost EUR 1 billion in 2010.....</i>	31
<i>... thereby adding over 4% of additional revenues to the underlying market value for mobile gadgets</i>	32
Market forecasts to 2014	34
<i>The region's market for mobile gadgets is forecast to continue rising at a steady rate... ..</i>	34
<i>... whether measured in value or volume terms</i>	36
<i>Sales of mobile gadget insurance should outpace the underlying market.....</i>	38
Mobile telephones.....	40
Introduction	40

Underlying market value and volume.....	41
<i>The number of mobile telephone subscriptions in the region reached 355.4 million in 2010.....</i>	41
<i>... driving average subscriptions per capita up to 1.29 with a high of 1.55 recorded for Italy.....</i>	43
<i>... although at around 247.2 million, the total number of individuals owning a mobile telephone is lower</i>	45
<i>All of the region's markets are now close to maturity although France remains something of a laggard</i>	47
Manufacturer schemes for mobile telephone insurance.....	49
<i>Apart from Apple, manufacturers hardly ever run extended warranty or insurance programs.....</i>	49
<i>Apple manages its AppleCare protection plan on an internal basis</i>	50
Retailer schemes for extended warranties and insurance.....	52
<i>Provision rates for mobile telephone insurance are marginally lower than those for mobile gadget cover... ..</i>	52
<i>... and peak at over two thirds in the case of mainstream (not virtual) network operators.....</i>	53
<i>Brokers of mobile telephone insurance are especially prominent in France and Italy.....</i>	55
Risk coverage of all schemes for extended warranties and insurance.....	58
<i>On average, the coverage of principal risks is most comprehensive in Ireland and the UK.....</i>	58
Market value for mobile telephone insurance.....	60
<i>The total market was worth approximately EUR 1.28 billion in 2010</i>	60
<i>In terms of the number of policies in force, the ranking of countries is slightly different.....</i>	62
<i>In relative terms, the UK, France and Ireland are likely to be the region's most developed markets.....</i>	63
Market forecasts to 2014	66
<i>The growth rate of mobile telephone subscriptions seems destined to slow between 2010 and 2014.....</i>	66
<i>Across the eight countries, around 265 million individuals will be owners of mobile telephones by 2014.....</i>	68
<i>The value of sales of mobile telephone insurance seem likely to continue rising in most countries</i>	70
<i>... especially if schemes are launched by network operators that are not currently active</i>	70
<i>Likewise, the number of mobile telephone insurance policies in force could also move up quite strongly.....</i>	72
3.0 BELGIUM	74
<i>Mobile gadgets.....</i>	74
Introduction.....	74
