

TABLE OF CONTENTS

0.0 EXECUTIVE SUMMARY	1
<i>The fleet sector accounts for nearly 15% of all motor insurance premiums, from just over 10% of vehicles</i>	<i>1</i>
<i>High average policy prices in Italy and Switzerland inflate their insurance markets</i>	<i>2</i>
<i>Specialist road transport segments, including operational leasing, account for nearly 45% of fleet cars</i>	<i>2</i>
<i>Motor insurance premiums for fleet passenger cars amounted to EUR 8.49 billion in 2011</i>	<i>2</i>
<i>Haulage vehicles made up more than one in six fleet commercial vehicles... ..</i>	<i>3</i>
<i>... and account for over a quarter of fleet commercial vehicle motor insurance premiums.....</i>	<i>4</i>
<i>Poland is forecast to have the fastest growth in fleet motor insurance, 2011 to 2015.....</i>	<i>4</i>
<i>Germany's road assistance market is smaller than France and the UK because policies pay a limited sum</i>	<i>5</i>
<i>710 actual or potential distributors of motor and GAP insurance and road assistance were researched.....</i>	<i>5</i>
1.0 INTRODUCTION	7
What is this report about?	7
<i>Motor insurance and assistance for fleets is studied by vehicle type, industry segment and distribution</i>	<i>7</i>
Rationale	7
<i>A market worth EUR 15.81 billion is analysed to a unique level of detail.....</i>	<i>7</i>
<i>...with the associated PartnerBASE™ dataset providing key information about competitors</i>	<i>8</i>
Methodology	8
Survey of associations and fleet operating companies	8
Market data	8

2.0 EUROPEAN OVERVIEW	17
Introduction	17
Key issues in the fleet market and in fleet insurance	17
<i>Operational leasing is becoming more popular as a means of finance.....</i>	<i>17</i>
<i>...and proposed changes to accountancy rules may make its 'service' element more important</i>	<i>18</i>
<i>Telematics has the potential to transform fleet insurance and assistance.....</i>	<i>18</i>
<i>... but pay-as-you-drive insurance for fleet customers is only available in the UK at present.....</i>	<i>19</i>
<i>The financial crisis forced the sale of Masterlease and ING Car Lease.....</i>	<i>20</i>
Size and segmentation of the fleet car and commercial vehicle parc	20
<i>There were nearly 25 million fleet vehicles in Europe in 2011</i>	<i>20</i>
<i>Germany, France and the UK have an above-average percentage of vehicles in fleets... ..</i>	<i>22</i>
<i>... because large firms predominate and cars are often provided to employees</i>	<i>23</i>
<i>Poland and Spain marked the best and worst performances during the recession</i>	<i>23</i>
<i>Sweden has the highest proportion of vehicles in fleets – especially passenger cars.....</i>	<i>25</i>
Segmentation of the fleet passenger car market	27
<i>One in five fleet cars are insured by operating lease companies</i>	<i>27</i>

<i>The motor trade itself holds a substantial stock of passenger cars.....</i>	28
<i>... followed by car hire firms.....</i>	28
<i>The importance of driving school and taxi fleets varies nationally.....</i>	29
<i>The economic crisis affected the size of car hire fleets most of all.....</i>	29
<i>... while a long-term trend in favour of operating leases counterbalanced the recession.....</i>	29
Segmentation of the fleet commercial vehicle market.....	31
<i>Operating lease firms have a smaller share of the fleet commercial vehicle market than for fleet cars.....</i>	31
<i>Haulage vehicles are the largest single use of fleet commercial vehicles.....</i>	31
<i>Long-term trends are working for operating lease vehicles.....</i>	32
<i>... but against couriers and postal services.....</i>	32
Size and segmentation of the fleet car and commercial vehicle insurance market.....	34
<i>Nearly EUR 16 billion is paid in motor insurance premiums for fleet vehicles.....</i>	34
<i>Premiums for heavy commercial vehicles exceeded premiums for light commercial vehicles.....</i>	35
<i>Higher average policy prices in Italy mean that it nearly equals the UK for fleet motor insurance GWP.....</i>	37
<i>... while high prices in Switzerland and low ones in Poland mean their insurance markets are similarly-sized.....</i>	37
<i>The fleet sector's share of motor insurance is much higher than its share of the vehicle parc in Poland.....</i>	38
<i>GWP for fleet motor insurance was lower than the level recorded for 2007 in three countries.....</i>	39
Segmentation of the fleet passenger car motor insurance market.....	41
<i>Nearly all categories of fleet passenger cars are higher risks than the average private car.....</i>	41
<i>... with car rental firms estimated to pay more in gross written premiums than the motor trade.....</i>	41
<i>... and only driving school cars are not seen as high-risk vehicles.....</i>	42
<i>Growth in premiums has been fastest for taxis and for operating lease fleets.....</i>	43
Segmentation of the fleet commercial vehicle market.....	44
<i>Road haulage accounts for a fifth of fleet commercial vehicle motor insurance.....</i>	44
<i>Couriers are the highest risk among commercial vehicle road transport segments.....</i>	44
<i>Fleet commercial vehicle price rises narrowly compensated for a decline in the vehicle parc.....</i>	45
Road assistance.....	47
<i>Fleet road assistance is bought by nearly all operating lease and rental companies.....</i>	47
<i>France and the UK have the largest fleet road assistance markets.....</i>	47
Forecasts for motor insurance and road assistance.....	49
<i>Forecasts have been made by segment and by country, based on trends in vehicle parc and policy prices.....</i>	49
<i>Passenger car policy prices are rising in most countries, starting with the UK in 2010 and 2011.....</i>	49
<i>Short-term rental and operational leasing are the most promising fleet car segments up to 2015.....</i>	50
<i>Poland, Germany and Italy are forecast to see premiums for fleet commercial vehicles rise most strongly.....</i>	51
<i>Road haulage follows the rental sector as the third-fastest growing segment for fleet premiums.....</i>	52
<i>Road assistance revenues are expected to grow steadily.....</i>	53
Distribution partnerships for fleet insurance and assistance.....	55
<i>710 actual or potential distributors are covered by this research.....</i>	55
Motor insurance.....	55
<i>Over a third of trade associations have an affinity partnership for motor insurance.....</i>	55
<i>Finance lease companies and leasing brokers / fleet management firms often do not offer motor insurance.....</i>	55
<i>Trade associations use external providers except for CETM, SFV and BOVAG.....</i>	57
<i>... most commercial organisations work with a single external underwriter.....</i>	59
<i>... except in Italy and Poland, where multiple partners are preferred.....</i>	59
<i>Broker relationships are not concentrated.....</i>	61
<i>... and fleet insurance specialists often have more partners than the 'big three' global brokers.....</i>	62
<i>The leading underwriter has more than a third of partnerships in Belgium, Poland, Sweden and Switzerland.....</i>	63
<i>Five international insurers hold a third of underwriter partnerships.....</i>	65
Road assistance.....	65
<i>Fewer trade associations have a scheme for road assistance than for motor insurance.....</i>	65
<i>... though this tendency is reversed for commercial partners in the UK.....</i>	66
<i>Bärgningstjänsten has its own assistance scheme for removals firms in Sweden.....</i>	68
<i>Internal assistance provision is common where specialist companies are not dominant.....</i>	70
<i>Just two brokers were found to have more than one commercial partner for road assistance.....</i>	71

<i>The leading assistance provider has over half of all the partnerships in Belgium, the Netherlands and the UK.....</i>	73
<i>Europ Assistance has the most partnerships of the international assistance providers.....</i>	74
GAP insurance.....	75
<i>GAP policies were available in eight out of ten countries.....</i>	75
<i>All leasing brokers and fleet management companies researched in the UK offered GAP insurance.....</i>	76
<i>Nearly one GAP partnership in five operates through an external broker.....</i>	76
<i>Gras Savoye, Nord Partner and Premia Solutions have the most partnerships for GAP insurance.....</i>	78
<i>Germany is the least concentrated market for GAP underwriter partnerships.....</i>	80
<i>AXA has the largest number of partnerships identified for GAP insurance, ahead of Genworth and Zurich.....</i>	81
Segmentation of fleet vehicles and insurance by type of insurance buyer.....	82
<i>Introduction.....</i>	82
Passenger cars.....	82
<i>Car hire firms: Germany has the largest growth opportunity for motor insurance in monetary terms.....</i>	82
<i>Driving schools: almost no growth in premiums is expected for this sector by 2015.....</i>	85
<i>Motor trade for passenger cars: Spain has seen the most dramatic decline in motor trade insurance.....</i>	87
<i>Operational leasing for cars: premium growth in Germany is forecast to be 40% of the European total.....</i>	89
<i>Taxi firms: the UK is forecast to have the largest growth in premiums, thanks to soaring prices.....</i>	91
<i>'Other' fleet cars: GWP is forecast to rise by over EUR 700 million in France, Germany and Italy combined.....</i>	93
Commercial vehicles.....	95
<i>Couriers and postal services: rising insurance prices are expected to turn decline into growth.....</i>	95
<i>Motor trade for commercial vehicles: new registrations are expected to recover in most countries.....</i>	97
<i>Operational leasing for commercial vehicles: Poland is the star market by past and forecast growth rates.....</i>	99
<i>Own account haulage: just over half of the growth in premiums will come from Germany.....</i>	101
<i>Removal firms: France is expected to see the best growth in both percentage and monetary terms.....</i>	103
<i>Road haulage firms: premiums are forecast to rise by nearly EUR 50 million in Germany and France.....</i>	105
<i>Van and lorry hire firms: the UK is the largest market for this segment in Europe.....</i>	107
<i>'Other' fleet commercial vehicles: GWP is forecast to rise by value most in Italy, and to fall only in Sweden.....</i>	109
3.0 BELGIUM.....	111
<i>Introduction.....</i>	111
Size of the car and commercial vehicle fleet market.....	112
<i>Belgium's fleet vehicle sector continues to grow, in spite of the macroeconomic climate.....</i>	112
<i>...and growth in the number of light commercial vehicles has been particularly strong.....</i>	112
Segmentation of the fleet market by type of insurance buyer.....	114
Passenger cars.....	114
<i>Operating lease firms usually arrange insurance cover for their vehicles.....</i>	114
<i>...but the majority of policies for fleet passenger cars are held by other types of user.....</i>	114
<i>The motor trade's stock of vehicles has remained largely unchanged in recent years.....</i>	114
<i>...and the structure of Belgium's taxi industry means that many vehicles are not part of fleets.....</i>	115
Commercial vehicles.....	117
<i>The majority of fleet commercial vehicles are owned by diverse businesses and the public sector.....</i>	117
<i>...with operating lease firms accounting for just 4.7% of the fleet commercial vehicle parc.....</i>	117
<i>Many areas of Belgium's road transport industry show a decline in vehicle numbers.....</i>	117
<i>...and the stock of vehicles held by the motor trade is yet to recover to its pre-recession level.....</i>	117
Fleet insurance and assistance market size.....	120
<i>The overall motor insurance market has grown in recent years, in line with rising vehicle numbers.....</i>	120
<i>...although the technical profitability of this line varies enormously between vehicle types.....</i>	120
Passenger car fleet insurance.....	122
<i>Gross written premiums generated by fleets of passenger cars continue to rise.....</i>	122
<i>...with operating lease companies and taxi firms demonstrating the strongest growth rates.....</i>	122
Commercial vehicle fleet insurance.....	125
<i>The insurance market for fleet commercial vehicles has barely grown in recent years.....</i>	125
<i>...and many key segments are still in decline following the recession.....</i>	125
Road assistance.....	127

<i>Belgium's road assistance market for fleet vehicles is rising steadily</i>	127
...with contracts linked to passenger cars representing the largest segment.....	127
Distribution partnerships for fleet insurance and assistance.....	128
<i>The research documents 62 actual or potential distributors of fleet insurance and assistance</i>	128
Motor insurance	128
<i>Relatively few Belgian trade associations have affinity deals for motor insurance</i>	128
<i>External underwriters and brokers account for around two thirds of commercial partnerships</i>	129
<i>For motor insurance, Vanbreda Risk & Benefits is the most commonly identified broker</i>	130
...and prominent underwriters include AXA, Chartis and Ethias	130
Road assistance	132
<i>Distribution of road assistance contracts by trade associations is fairly weak in Belgium</i>	132
<i>Commercial partnerships are dominated by specialist assistance providers</i>	133
<i>Two national providers account for more than three quarters of all partnerships</i>	134
...but multi-nationals such as Europ Assistance and Mondial Assistance are also present	134
GAP insurance.....	136
<i>Commercial availability of GAP cover is far less common than that of standard motor policies</i>	136
Other key insurance and assistance providers	138
<i>Belgium's top ten motor underwriters all offer fleet insurance policies</i>	138
...and member organisation ITS promotes new initiatives in telematics and fleet management.....	138
Forecasts for fleet motor insurance and road assistance	139
Motor insurance	139
<i>Finaccord expects a continuous and steady expansion in the years ahead</i>	139
...with premiums generated by car hire firms being likely to display the fastest growth rates.....	139
...and revenue from commercial vehicles will grow more quickly than that from passenger vehicles.....	140
Road assistance	142
<i>Premiums from commercial vehicle fleets are expected to generate the fastest growth</i>	142
4.0 FRANCE.....	143
Introduction.....	143
Size of the car and commercial vehicle fleet market.....	144
<i>Growth in France's fleet vehicle sector remains slow but steady</i>	144
...with the number of buses and coaches being particularly buoyant.....	144
Segmentation of the fleet market by type of insurance buyer	146
Passenger cars	146
<i>Operating lease firms usually arrange insurance cover for their vehicles</i>	146
...but most policies for fleet passenger cars are held by diverse businesses and the public sector.....	146
<i>The number of vehicles held by the motor trade has fluctuated in recent years</i>	146
...although the number of taxis is on the increase, in spite of some contentious licensing issues.....	147
Commercial vehicles	149
<i>The number of fleet commercial vehicles held by operating lease firms has yet to fully recover</i>	149
...with road haulage firms also feeling the effects of recession	149
<i>Rising sales help to increase the stock of commercial vehicles insured by the motor trade</i>	149
...and La Poste operates one of the largest commercial vehicle fleets in Europe.....	149
Fleet insurance and assistance market size.....	152
<i>Both the overall and fleet-only motor insurance markets have increased in recent years</i>	152
...although the profitability of this line of business is less consistent.....	152
Passenger car fleet insurance.....	154
<i>Non-specialist fleets generate around three quarters of passenger car fleet premiums</i>	154
...with premiums from taxi fleets being the fastest rising specialist segment.....	154
Commercial vehicle fleet insurance	157
<i>Growth in premiums from commercial vehicle fleets is far lower than that of passenger car fleets</i>	157
...with both road haulage and operating lease segments declining recently	157
Road assistance	159

<i>France's road assistance market has continued to develop steadily</i>	159
<i>...and virtually all car hire firms and operating lease companies include this service for their clients</i>	159
Distribution partnerships for fleet insurance and assistance.....	160
<i>The research documents 73 actual or potential distributors of fleet insurance and assistance</i>	160
Motor insurance	160
<i>More than 60% of French trade associations operate affinity schemes for motor insurance</i>	160
<i>Insurance offered by leasing firms is typically optional, but the majority of customers accept this cover</i>	161
<i>Gras Savoye, Aon and Verspieren are the most commonly identified brokers in this area</i>	162
<i>...and one prominent insurer accounts for around 30% of all underwriting partnerships</i>	162
Road assistance	165
<i>French trade associations do not typically offer road assistance to their members</i>	165
<i>Many commercial organisations co-ordinate their own road assistance schemes</i>	165
<i>Leading providers are a mixture of multi-national specialists and manufacturer-branded services</i>	166
GAP insurance.....	169
<i>GAP cover is a widely available and popular option in France</i>	169
<i>14 brokers are identified as providing GAP cover schemes to affinity and commercial partners</i>	170
<i>...and AXA accounts for more than a third of all underwriting partnerships in this area</i>	170
Other key insurance and assistance providers	172
<i>Motor fleet insurance is available from all major non-life underwriters</i>	172
<i>Advanced telematics solutions are available, but these are not linked to insurance premiums</i>	172
<i>There are several dedicated assistance networks for large commercial vehicles</i>	172
Forecasts for fleet motor insurance and road assistance	173
Motor insurance	173
<i>Steady increases in the fleet vehicle parc will lead to a growing motor insurance market</i>	173
<i>...with all segments of the passenger car market expected to develop, albeit at very different rates</i>	173
<i>Premiums from commercial vehicles will also rise, but less quickly than those from passenger cars</i>	174
Road assistance	176
<i>The expansion of passenger car fleets will generate the bulk of the revenue gains forecast here</i>	176
5.0 GERMANY	177
Introduction	177
Size of the car and commercial vehicle fleet market.....	178
<i>The fleet passenger car parc in 2011 was the same size as in 2007</i>	178
<i>Bus fleets are often covered through voluntary funding pools</i>	178
Segmentation of the fleet market by type of insurance buyer	180
Passenger cars	180
<i>Captive leasing companies tend to make their own insurance policies compulsory</i>	180
<i>Cars insured by operating lease companies make up a quarter of the total fleet passenger car parc</i>	180
<i>Passenger car sales have been very volatile since 2007, affecting the stock held by the motor trade</i>	180
<i>...car rental fleets fell with the recession and rose again with the recovery</i>	181
<i>... while the size of taxi and driving school fleets has shrunk due to long-term trends</i>	181
Commercial vehicles	184
<i>The recession and a shift towards operational leasing are the main forces affecting this sector</i>	184
<i>... though couriers and postal services are in a long-term decline as electronic communications rise</i>	184
Fleet insurance and assistance market size.....	187
<i>The overall motor insurance market has remained broadly stagnant since 2007</i>	187
<i>...while the market for fleet insurance bounced back in 2011</i>	187
Passenger car fleet insurance.....	189
<i>GWP for fleet cars is on the increase, driven by the economic recovery and rising prices</i>	189
<i>... with premiums paid by operating lease companies and the motor trade rising most</i>	189
Commercial vehicle fleet insurance	192
<i>The insurance market for fleet commercial vehicles was nearly 80% of the value of the fleet car market</i>	192
<i>The two haulage segments account for a third of fleet commercial vehicle premiums</i>	192

Road assistance	195
<i>The fleet road assistance market is smaller than in France or the UK because policies pay out much less.....</i>	195
Distribution partnerships for fleet insurance and assistance.....	196
<i>95 actual or potential distributors are covered by this research.....</i>	196
Motor insurance	196
<i>Several major associations have partnerships for fleet motor insurance</i>	196
<i>A clear majority of commercial organisations offer fleet motor insurance to their customers.....</i>	197
<i>No broker emerges as leader in terms of partnerships with trade associations or commercial organisations</i>	198
<i>KRAVAG greatly benefits from its deal with SVG Bundes-Zentralgenossenschaft.....</i>	198
<i>Germany's driving schools have a specialist insurance provider</i>	199
<i>QBE focuses on large fleets and bus insurance</i>	199
<i>Signal Iduna's VdK is the largest underwriter for taxi insurance in Germany.....</i>	200
Road assistance	202
<i>Road assistance provision for trade associations always comes from the same source as motor insurance</i>	202
<i>... while the preferred operating model among commercial partnerships is with single external providers</i>	203
<i>Broker partnerships for road assistance are fragmented.....</i>	204
<i>Several commercial organisations have their fleet road assistance organised through their motor insurance</i>	204
GAP insurance.....	206
<i>It is very common for leasing companies to offer GAP insurance in Germany.....</i>	206
<i>Zurich has the highest number of partnerships for the provision of fleet GAP insurance in Germany.....</i>	207
<i>Four other insurers have partnerships with more than one leasing company</i>	207
Other key insurance and assistance providers	210
<i>Aon Jauch & Hübener intermediates fleet motor insurance for 180,000 vehicles... ..</i>	210
<i>...while smaller brokers specialise in particular segments.....</i>	210
<i>Some small companies take out comprehensive business cover where fleet insurance is just one element.....</i>	210
<i>... while some very large corporate clients try to take on as much risk as possible themselves</i>	210
<i>Germany is only slowly adopting telematics technology for insurance and assistance purposes</i>	211
<i>A number of specialist assistance providers have emerged over the last few years.....</i>	211
Forecasts for fleet motor insurance and road assistance	212
Motor insurance	212
<i>Economic recovery and rising prices will drive up gross written premiums in the fleet motor sector... ..</i>	212
<i>... and price rises will outweigh any decline in the underlying fleet parc.....</i>	212
<i>Long-term and short-term rental fleets are expected to grow fastest between 2011 and 2015.....</i>	213
Road assistance	215
<i>Premiums are expected to rise more for passenger car fleets than for commercial vehicle fleets</i>	215
6.0 ITALY	216
Introduction	216
Size of the car and commercial vehicle fleet market.....	217
<i>Italy has the most passenger cars and heavy commercial vehicles per person out of these ten countries</i>	217
<i>Bus services remain under municipal control, though Genoa has set an example for part-privatisation.....</i>	217
Segmentation of the fleet market by type of insurance buyer	219
Passenger cars	219
<i>In Italy, operating lease vehicles are insured by the lease company in the great majority of cases</i>	219
<i>...though they account for only one fleet passenger car in five.....</i>	219
<i>New car sales declined by more than a third between 2007 and 2011.....</i>	219
<i>ACI runs a network of driving schools instead of having its own company to train drivers.....</i>	220
<i>Taxis remain one-man businesses, despite attempts at reform</i>	220
Commercial vehicles	223
<i>The motor trade saw the largest fall in fleet commercial vehicles, 2007 to 2011.....</i>	223
<i>The number of road haulage vehicles has fallen thanks to the recession.....</i>	223
<i>... while there are few fleet removal vehicles since Italians move home rarely</i>	223
Fleet insurance and assistance market size.....	226
<i>The number of uninsured vehicles has risen since 2007.....</i>	226

<i>The fleet motor insurance market recovered well in 2011, with rising prices</i>	226
Passenger car fleet insurance	228
<i>Premiums paid by operational leasing firms and car hire were higher in 2011 than in 2007...</i>	228
Commercial vehicle fleet insurance	231
<i>The insurance market for fleet commercial vehicles was little more than half that of passenger cars in 2007</i>	231
<i>Premiums paid by road haulage fleets are comparatively small in Italy</i>	231
<i>... while removals firms and van and lorry hire firms contributed just 1.5% of fleet GWP between them</i>	231
Road assistance	234
<i>The road assistance market reached a new high in 2011</i>	234
Distribution partnerships for fleet insurance and assistance.....	235
<i>65 actual or potential distributors are covered by this research</i>	235
Motor insurance	235
<i>Over 40% of trade associations have a partnership for motor insurance</i>	235
<i>... rising to 58% when adding in associations that belong to Confindustria</i>	235
<i>No commercial organisation used a broker for motor insurance</i>	236
<i>Only four insurers had more than one partner</i>	237
Road assistance	240
<i>Few trade associations have a partnership for road assistance</i>	240
<i>Commercial organisations are split evenly between internal and external assistance</i>	240
<i>While ACI is one of the leading assistance providers, it is not as dominant as the AA, ANWB, RACE or VAB</i>	241
GAP insurance.....	243
<i>Two specialist insurers and two non-specialists offer GAP insurance through leasing companies</i>	243
Other key insurance and assistance providers	244
<i>Alleanza Toro and AXA underwrite specialist motor insurance risks</i>	244
<i>Telematics is used by leading insurers primarily in case of accident or theft for private passenger cars</i>	245
Forecasts for fleet motor insurance and road assistance	246
Motor insurance	246
<i>The fleet passenger car insurance market is forecast to grow faster than the commercial vehicle market</i>	246
<i>Premiums paid by operating lease and car hire firms are expected to grow fastest in the fleet car sector</i>	246
<i>... along with road haulage firms in the commercial vehicle sector</i>	247
Road assistance	249
<i>The value of the assistance market is expected to rise with more fleet vehicles plus inflation</i>	249
7.0 NETHERLANDS	250
Introduction	250
Size of the car and commercial vehicle fleet market.....	251
<i>The fleet vehicle parc has grown since 2007, with only a slight pause in 2009 and 2010</i>	251
<i>... and the sector of fleet heavy goods vehicles was the only one to decline over 2007 to 2011</i>	251
<i>The majority of bus services are privatised, with the notable exception of the Amsterdam transport system</i>	251
Segmentation of the fleet market by type of insurance buyer	253
Passenger cars	253
<i>Three forms of operating lease are available in the Netherlands</i>	253
<i>...and they make up the largest single element of the fleet passenger car parc</i>	253
<i>The motor trade insures many cars because the used car market is unusually large in the Netherlands</i>	254
<i>The majority of taxis are run by companies rather than self-employed drivers</i>	254
Commercial vehicles	257
<i>Finance leases and fleet management are more important for commercial vehicles than for cars</i>	257
<i>The number of fleet vehicles fell most for the motor trade and rose most for hire firms, 2007 to 2011</i>	257
<i>Own account haulage accounts for an above-average share of the overall haulage fleet</i>	257
Fleet insurance and assistance market size.....	260
<i>Falling average premiums and rising claims have driven the claims ratio up</i>	260
<i>Fleet motor insurance GWP fell faster than non-fleet GWP because of the decline in liability premiums</i>	260
Passenger car fleet insurance.....	262

Operational lease firms pay more than a third of all fleet passenger car premiums	262
Premiums paid by all the specialist transport segments fell between 2007 and 2011.....	262
Commercial vehicle fleet insurance	265
Premiums for fleet commercial vehicles are worth 75% of those for fleet passenger cars... ..	265
...with premium growth coming from operational lease firms and hire firms	265
Road assistance	268
ANWB offers a menu of options for road assistance, enabling companies to tailor it to their needs	268
Distribution partnerships for fleet insurance and assistance.....	269
60 actual or potential distributors are covered by this research.....	269
Motor insurance	269
Although just over a third of trade associations offer motor insurance.....	269
... these include most of the largest ones	269
Leasing brokers select lease companies, and do not handle financial services.....	270
Aon has the largest number of partnerships for motor insurance.....	271
Road assistance	274
The main taxi and driving school associations do not offer road assistance to go with motor insurance	274
Most commercial organisations have a direct partnership with an assistance provider	274
ANWB holds over 60% of all assistance partnerships	275
Other key insurance and assistance providers	277
Specialist companies offer policies for taxi and courier insurance.....	277
Pay-as-you-drive insurance now exists for personal customers	277
Forecasts for fleet motor insurance and road assistance	278
Motor insurance	278
The fleet passenger car insurance market is forecast to grow well up to 2015.....	278
Premiums paid by operating lease and car hire firms are expected to grow fastest in the fleet car sector.....	279
Road assistance	281
Revenues for fleet passenger car assistance are expected to rise fastest	281
8.0 POLAND.....	282
Introduction.....	282
Size of the car and commercial vehicle fleet market.....	283
All segments of the Polish fleet have grown overall since 2007... ..	283
... with the bus and coach fleet representing the slowest growth overall.....	283
Segmentation of the fleet market by type of insurance buyer	285
Passenger cars	285
Operational leasing numbers see overall gains despite extreme volatility... ..	285
...while the motor trade remains the largest single section of the fleet passenger car market.....	285
...and only driving schools post an overall decline since 2007.....	285
Commercial vehicles	288
Road haulage companies make up the largest individual fleet commercial vehicle segment.....	288
...while commercial vehicle operating lease firms showed the biggest increases by far	288
...and the remaining sectors all show significant volatility in market size	288
Fleet insurance and assistance market size.....	291
Fleet motor insurance as a percentage of the market has varied only slightly since 2007.....	291
Passenger car fleet insurance.....	292
Car hire companies represent the largest segment of the fleet insurance market	292
...while operating leases again show the largest individual compound annual increase	293
The motor trade emerges from an unsteady period marginally higher.....	293
Commercial vehicle fleet insurance	296
The insurance market for fleet commercial vehicles is twice that for passenger cars... ..	296
...while operational leasing for commercial vehicles enjoys continuous strong growth	296
...and courier and postal firms and removals firms see an extended gradual decline in premiums	296
Road assistance	299

<i>The road assistance market has continued growth in virtually all areas</i>	299
Distribution partnerships for fleet insurance and assistance.....	300
<i>85 actual or potential distributors are covered by this research</i>	300
Motor insurance	300
<i>The vast majority of commercial organisations have an external partnership for motor insurance</i>	300
<i>There are 12 partnerships using a combination of seven different brokers</i>	301
... <i>while commercial partnerships tend to involve fewer arrangements made via brokers</i>	302
... <i>preferring to deal with insurers directly, with PZU by far the most frequently named partner</i>	302
... <i>while three other firms record double-digit partnerships</i>	303
<i>Seven insurers feature four partnerships or fewer</i>	303
Road assistance	305
<i>All the trade associations that offer road assistance rely on brokers</i>	305
... <i>while a modest majority of commercial partnerships offer assistance through insurers</i>	305
<i>PZU continues to dominate the insurer-administered assistance market</i>	306
... <i>while internal provision and the use of specialist assistance providers remain strong options</i>	307
GAP insurance.....	309
<i>Only a third of leasing firms and leasing brokers offer GAP insurance</i>	309
Other key insurance and assistance providers	312
<i>The largest brokers and underwriters in Poland are all active in fleet insurance</i> ..	312
... <i>while telematics are not yet a factor in insuring fleets</i>	312
Forecasts for fleet motor insurance and road assistance	313
Motor insurance	313
<i>Premiums are expected to rise faster for fleet passenger cars than for fleet commercial vehicles</i>	313
<i>Car hire firms are expected to show the highest growth in premiums among passenger cars</i>	313
... <i>while most commercial vehicle segments are forecast to see continued growth to 2015</i>	314
Road assistance	316
<i>Premiums are expected to rise at a comparable rate among the three main segments of the market</i>	316
9.0 SPAIN	318
Introduction	318
Size of the car and commercial vehicle fleet market.....	319
<i>The size of the fleets held by rental firms and the motor trade has fallen sharply since 2007</i>	319
... <i>and the bus and coach fleet is the only sector to grow in recent years</i>	319
Segmentation of the fleet market by type of insurance buyer	321
Passenger cars	321
<i>Operating lease vehicles are insured by the lease company in Spain</i>	321
... <i>and constitute 30% of the stock of fleet passenger cars</i>	321
<i>The motor trade's stock of vehicles has plummeted since the recession</i>	321
<i>Taxi and driving schools fleets are small since self-employment dominates these sectors</i>	322
Commercial vehicles	325
<i>Operating lease vehicles form a smaller part of the fleet parc for the commercial sector</i>	325
<i>The sector of couriers and postal vehicles is the only one to have grown, thanks to Grupo Correos</i>	325
Fleet insurance and assistance market size.....	328
<i>The overall motor insurance market has fallen between 2007 and 2011 due to a decline in policy volumes</i>	328
... <i>driven by a fall in fleet vehicles and a rise in uninsured non-fleet drivers</i>	328
Passenger car fleet insurance.....	330
<i>Every segment within the fleet passenger car market has shrunk</i>	330
... <i>with car hire firms' premiums falling most of all</i>	330
Commercial vehicle fleet insurance	333
<i>The insurance market for fleet commercial vehicles is worth 85% of the fleet passenger car market</i>	333
<i>Liability prices have fallen faster than other motor insurance policies since 2007</i>	333
Road assistance	336
<i>The road assistance market has declined as the number of fleet vehicles has shrunk</i>	336

Distribution partnerships for fleet insurance and assistance.....	337
<i>70 actual or potential distributors are covered by this research.....</i>	337
Motor insurance	337
<i>All commercial organisations have a partnership for motor insurance.....</i>	337
<i>Nine brokers were identified for motor insurance, led by CETM Seguros among trade associations.....</i>	339
<i>...while 14 underwriters shared 43 relationships.....</i>	339
Road assistance	341
<i>Road assistance provision for trade associations always comes from the same source as motor insurance</i>	341
<i>... while commercial partnerships are concentrated on specialist assistance providers.....</i>	341
<i>Two brokers offer road assistance through trade associations</i>	342
<i>Specialist assistance providers and insurance companies share commercial partnerships between them.....</i>	342
<i>... including three multi-national assistance specialists</i>	343
Other key insurance and assistance providers	345
<i>Only one major underwriter was found that did not provide motor fleet insurance</i>	345
<i>All leading brokers handle motor fleet business, but this sector is dominated by a handful of players.....</i>	345
<i>Local assistance providers rescue commercial vehicles in case of breakdown</i>	345
Forecasts for fleet motor insurance and road assistance	346
Motor insurance	346
<i>Spain's slow economic recovery means that the fleet insurance market is expected to grow only slowly</i>	346
<i>Premiums for the car hire sector are expected to be one of the fastest-growing areas, thanks to tourism</i>	346
<i>Operational leasing can recover well as companies renew their vehicle parc.....</i>	347
Road assistance	349
<i>Premiums are expected to rise faster for passenger car fleets than for commercial vehicle fleets.....</i>	349
10.0 SWEDEN.....	350
Introduction.....	350
Size of the car and commercial vehicle fleet market.....	351
<i>Sweden's commercial fleet holds fairly steady through economic uncertainty... ..</i>	351
<i>... though the size of the bus and coach fleet may be near a plateau... ..</i>	351
<i>...and the growth of the lorry and heavy commercial vehicle fleet appears equally flat.....</i>	351
Segmentation of the fleet market by type of insurance buyer	353
Passenger cars	353
<i>In Sweden, almost all leasing companies offer insurance... ..</i>	353
<i>...with operational leasing firms making up the largest individual portion of the fleet insurance market.....</i>	353
<i>Taxi and private hire car firms show only limited growth... ..</i>	353
<i>...while the driving school parc is estimated to have declined slightly.....</i>	354
Commercial vehicles	356
<i>One third of commercial vehicles are part of the operational leasing parc.....</i>	356
<i>...while van and lorry hire firms have posted the largest growth among commercial vehicles since 2007.....</i>	356
<i>... though other sectors showed much more modest growth.....</i>	356
Fleet insurance and assistance market size.....	359
<i>Fleet motor insurance has recovered from its 2007 market low.....</i>	359
<i>... with a sharp rise in average prices for 2010 and 2011.....</i>	359
Passenger car fleet insurance.....	360
<i>The high proportion of fleet cars in Sweden makes the 'other' category exceptionally large... ..</i>	360
<i>...while car hire companies show the highest average annual growth rate</i>	360
Commercial vehicle fleet insurance	363
<i>The insurance market for fleet commercial vehicles is significantly smaller than that for passenger cars.....</i>	363
<i>More than half of commercial fleet premiums come from the 'other' category.....</i>	363
<i>Van and lorry hire firms show strong annual growth in premiums paid.....</i>	363
Road assistance	366
<i>The road assistance market has increased since 2007 despite a period of reduced growth.....</i>	366
Distribution partnerships for fleet insurance and assistance.....	367

<i>60 actual or potential distributors are included in the scope of this research</i>	367
Motor insurance	367
<i>Only one fifth of trade associations have created a partnership for motor insurance</i>	367
<i>Norwegian bank DnB Nor holds a large segment of both operational and finance leasing markets</i>	369
Road assistance	372
<i>As with insurance, few associations offer roadside assistance</i>	372
<i>... while commercial partnerships offer multiple configurations involving insurers and specialist providers</i>	372
<i>If Försäkringar has a large number of relationships for road assistance</i>	373
<i>...while Assistancekåren and Falck alone act as nationwide roadside assistance providers</i>	373
GAP insurance	376
<i>Only two vehicle leasing firms offer GAP insurance</i>	376
Other key insurance and assistance providers	378
<i>The motor fleet market is dominated by national and regional insurers</i>	378
<i>... while telematics are yet to breach the insurance market</i>	379
Forecasts for fleet motor insurance and road assistance	379
Motor insurance	379
<i>Rapid recovery will give way to slower increases in volume and revenue</i>	379
<i>Operating lease firms are projected to show the strongest growth in premiums among passenger cars</i>	379
<i>... and also among fleet commercial vehicles</i>	380
Road assistance	382
<i>Passenger car fleets and commercial vehicle fleets should experience equal growth</i>	382
11.0 SWITZERLAND	384
Introduction	384
Size of the car and commercial vehicle fleet market.....	385
<i>The fleet vehicle parc fell modestly in the recession, and more than recovered in 2011</i>	385
<i>Switzerland has the smallest heavy commercial vehicle parc per capita of the ten countries in this report</i>	385
<i>Local authorities and the post office run most bus and coach services</i>	385
Segmentation of the fleet market by type of insurance buyer	387
Passenger cars	387
<i>Operating leases are not the dominant form of finance for fleets in Switzerland</i>	387
<i>... though their share of the fleet car market is growing</i>	387
<i>Car registrations have risen well since a low in 2009</i>	388
Commercial vehicles	391
<i>Operational lease fleets have expanded since 2007</i>	391
<i>... while haulage fleets have declined, for both road haulage and own account transport</i>	391
Fleet insurance and assistance market size.....	394
<i>The overall motor insurance market has remained broadly stagnant up to 2010</i>	394
<i>The fleet sector reached a new peak in 2011</i>	394
Passenger car fleet insurance.....	396
<i>Premiums paid by operational leasing companies have risen the fastest since 2007</i>	396
<i>... followed by the motor trade in second place</i>	396
Commercial vehicle fleet insurance	399
<i>The small number of commercial vehicles in Switzerland means that the fleet insurance market is also small</i> ...	399
<i>Haulage accounts for nearly 30% of the fleet commercial vehicle insurance market</i>	399
Road assistance	402
<i>The road assistance market has grown with the fleet vehicle parc</i>	402
Distribution partnerships for fleet insurance and assistance.....	403
<i>60 actual or potential distributors are covered by this research</i>	403
Motor insurance	403
<i>Only a minority of trade associations make fleet motor insurance available to their members</i>	403
<i>Most commercial organisations offering fleet motor insurance work with a single external underwriter</i>	403
<i>Glausen & Partner handles motor insurance for 20% of the members of a major Swiss association</i>	404

Among underwriters AXA Winterthur has the highest number of partnerships.....	405
...followed by Allianz	405
Road assistance	407
Road assistance provision for trade associations always comes from the same source as motor insurance... ..	407
... while it is offered by two thirds of the commercial partners surveyed.....	407
Allianz, AXA Winterthur and TCS have the highest number of partnerships	408
GAP insurance.....	410
There is no strong rationale to take out GAP insurance in Switzerland	410
Other key insurance and assistance providers	411
Many Swiss companies still opt to insure their cars individually rather than through collective contracts.....	411
Allianz has introduced telematics to help with assistance.....	412
Forecasts for fleet motor insurance and road assistance	412
Motor insurance	412
An increase in the fleet vehicle parc and rising prices should send premiums higher.....	412
... with the trend towards operational leasing expected to continue	413
Road assistance	415
Low inflation means that growth in revenues will mostly come mostly a rise in the fleet vehicle parc	415
12.0 UNITED KINGDOM	417
Introduction	417
Size of the car and commercial vehicle fleet market.....	418
The car rental and road haulage fleet markets suffered most in the recession... ..	418
... though the size of the bus and coach fleet is in long-term decline	418
Segmentation of the fleet market by type of insurance buyer	420
Passenger cars	420
In the UK, insurance is not included with an operating lease.....	420
... but new regulations will fine operating lease companies for non-insured vehicles anyway	420
The motor trade has the largest fleet of passenger cars among transport-related segments.....	420
The UK's two largest driving schools have had the same owner since January 2011	421
Commercial vehicles	423
Road haulage companies form the largest specialist transport segment.....	423
... though own account haulage and the motor trade are the only sectors that grew between 2007 and 2011 ...	423
Fleet insurance and assistance market size.....	426
Fleet motor insurance has declined as a share of the total since 2007.....	426
... because of trends in pricing as well as in the underlying vehicle parc.....	426
Passenger car fleet insurance.....	428
Car hire companies pay the highest average premiums among specialist motor segments	428
Commercial vehicle fleet insurance	431
The insurance market for fleet commercial vehicles has fallen behind that for passenger cars since 2009	431
Road assistance	434
The road assistance market has recovered from a low in 2009.....	434
Distribution partnerships for fleet insurance and assistance.....	435
80 actual or potential distributors are covered by this research.....	435
Motor insurance	435
Nearly half of these trade associations and commercial organisations have a partner for motor insurance	435
22 brokers share 26 partnerships for motor insurance... ..	437
... while two thirds of partnerships with insurers are concentrated among three underwriters	437
Road assistance	439
Affinity partnerships often rely on motor insurance brokers to provide road assistance as well.....	439
... while commercial partnerships are concentrated on specialist assistance providers.....	439
Nine brokers have one partnership each.....	440
... while two assistance providers share more than 40 partnerships between them.....	440
GAP insurance.....	443

FLEET INSURANCE AND ASSISTANCE IN EUROPE

GAP insurance is offered by nearly half of the leasing companies and leasing brokers surveyed443
Six brokers and six underwriters were identified for GAP insurance444

Other key insurance and assistance providers446
The size of the motor fleet market means that all major insurance brokers are active in this area.....446
... while high-risk segments are often covered by Lloyd’s syndicates446
Captives and self-insurance offer alternative means of insuring fleets.....446
... while telematics can also help to reduce insurance costs.....447
Specialist assistance providers serve the road haulage industry447

Forecasts for fleet motor insurance and road assistance448

Motor insurance448
Premiums are expected to rise faster for fleet passenger cars than for fleet commercial vehicles.....448
Car hire firms are expected to show the strongest growth in premiums among passenger cars.....448
... while road haulage has the best prospects among fleet commercial vehicles.....449

Road assistance451
Premiums are expected to rise faster for passenger car fleets than for commercial vehicles.....451
