<b>2.0 EUROPEAN OVERVIEW .....</b>	<b>16</b>
Introduction .....	16
Market analysis – protection-related life insurance .....	16
<i>Gross written premiums for protection-related life insurance have grown in each year since 2006... ..</i>	<i>16</i>
<i>...with the French market boosted by provident institutions and health mutuals in addition to insurers.....</i>	<i>16</i>
<i>Gross written premiums have risen in all but two of the 20 countries investigated.....</i>	<i>18</i>
<i>Non-creditor insurance makes up more than half of total protection-related life insurance across Europe.....</i>	<i>19</i>
<i>...mainly because of the sheer size of the French non-creditor market.....</i>	<i>19</i>
<i>Per capita premiums for protection-related life insurance in France are more than 125 times those in Russia.....</i>	<i>22</i>
Bancassurance analysis .....	23
Provision rates and operating models for risk life insurance .....	23
<i>No banking entity in the Czech Republic was found to offer stand-alone risk life insurance.....</i>	<i>23</i>
<i>A half of all partnerships operate with a single external underwriter.....</i>	<i>23</i>
<i>...though captives are preferred in several countries.....</i>	<i>23</i>
<i>The captive model is most common on a weighted basis... ..</i>	<i>27</i>
<i>... simply because larger institutions are more likely to have established captive insurance providers .....</i>	<i>27</i>
Provision rates and operating models for critical illness insurance.....	30
<i>The provision rate for stand-alone critical illness insurance is highest in Norway.....</i>	<i>30</i>
<i>More than 10% of banks use a broker for critical illness insurance, compared to 5.8% for risk life .....</i>	<i>30</i>
<i>Captive providers are again more prominent on a weighted basis.....</i>	<i>34</i>
Provision rates and operating models for income protection insurance .....	37
<i>On average, just over one in five of the institutions surveyed offer income protection insurance .....</i>	<i>37</i>

<i>A majority of partnerships are built around captive underwriters when measured on a weighted basis</i> .....	40
Distribution share of bancassurance for protection-related life insurance .....	43
<i>Finaccord's analysis illustrates the influence of bancassurance on a standardised basis</i> .....	43
<i>The highest share attributable to the bancassurance channel is between 60% and 80%</i> .....	43
Pan-European bancassurance groups.....	45
<i>French captive bancassurance groups dominate the European market by size</i> .....	45
<i>... and only two non-captives rank in the top tier</i> .....	45
