TABLE OF CONTENTS

0.0 EXECUTIVE SUMMARY 1

1.0 INTRODUCTION 3

What is this report about? 3

Distribution partnerships with banks and other lending institutions constitute the focus of this report 3

Rationale 3

Bancassurance is comfortably the most important distribution channel for life insurance in Italy 3

Methodology 4

Survey of banks and other lending institutions 4

Market data 4

Definitions 5

Investment-related life insurance 5

Retirement savings 5

Risk life insurance 5

Critical illness insurance 6

Income protection insurance 6

Accident insurance 6

Health / hospital cash plans 6

Medical expenses insurance 6

Personal motor insurance 7

Household insurance 7

Creditor insurance 7

Mortgages, consumer finance and credit cards 7

Weighted provider share of partnerships 8

Operating models 8

Abbreviations and exchange rates 9

PartnerBASE and market data annexe 9

Finaccord 9

2.0 MARKET BACKGROUND 11

Banks and other lending institutions covered 11

Introduction to the banking sector 12

Four, or arguably five, retail banking groups lay claim to a genuinely nationwide network… 12

… although these are challenged by an array of ambitious regional competitors… 12

… including the 'banche di credito cooperative' and 'casse Raiffeisen'… 12

… as well as several insurer-owned banks and banks falling under foreign ownership 12

Italy also plays host to a considerable number of specialised lending institutions 12

Italy's banking groups typically encapsulate a number of local or regional banking brands 13

3.0 INVESTMENT-RELATED LIFE INSURANCE AND RETIREMENT SAVINGS 14

Insurance market size and growth 14

Following sharp declines in 2011 and 2012, the market value rose again in 2013 14

Distribution share of banks 16

Banks account for close to 50% of all life insurance business but their share has declined since 2010 16

Bancassurance provision rates, operating models and partnerships 16

Investment-related life insurance 16

A comparatively high proportion of banking institutions work with one more than product provider 16

AXA MPS is the leading provider by weighted share of partnerships… 17
... in a market dominated by joint venture and captive underwriters....17
In total, over a dozen providers of investment-related life insurance are classifiable as captive providers....17
... although uncertainty surrounds the future ownership status of Carige Vita Nuova... 17
…and there are ten joint ventures....18
Other providers with a significant presence include Arca, Genertel, Eurovita and UNIQA 18
Most institutions with no involvement in this area are classifiable as specialised lenders....18
Retirement savings 20
Providers of retirement savings include both insurance companies and investment management firms... 20
... with the latter including UniCredit's Pioneer....20
In the field of retirement savings, Arca is ranked first by weighted share of partnerships 20
UniCredit Banca works with three insurance companies and an investment management firm 20
Once again, product providers include a significant number of captive and joint venture entities....20
... although over 20 external companies possess at least one exclusive partnership in this domain....21
Performance of key bancassurance underwriters 23
Nearly 30 bank-owned captive or joint venture underwriters are active in the Italian life insurance market... 23
... although fewer compete in the pension funds sector....23
4.0 PROTECTION-RELATED LIFE INSURANCE....26
Insurance market size and growth 26
The market for protection-related life insurance has also returned to growth since the slump of 2011 26
Distribution share of banks 27
Bancassurance provision rates, operating models and partnerships 27
Risk life insurance....27
AXA MPS and Poste Vita are the leaders in this sector by weighted share of partnerships... 27
... with the former having also been successful in securing distribution with external banks....27
UniCredit Banca works with three joint venture underwriters in this field 28
A number of major banking entities ignore risk life insurance in favour of creditor policies....28
Critical illness insurance 30
Critical illness cover is hardly ever sold in a stand-alone format by Italian banks... 30
Income protection insurance....30
... and the penetration of income protection policies is only a little higher....30
Performance of key bancassurance underwriters....30
5.0 ACCIDENT AND HEALTH INSURANCE 33
Insurance market size and growth 33
Both the accident and health insurance markets fells back between 2009 and 2013... 33
Distribution share of banks 34
... albeit banks have made some progress as distributors of both policy types 34
Bancassurance provision rates, operating models and partnerships 35
Accident insurance 35
Accident insurance policies are available from close to 60% of Italian banking institutions surveyed 35
Three joint ventures and two captives rank among the top five by weighted share of partnerships....35
Arca, MetLife and Chiara Assicurazioni also each hold a number of significant relationships....35
A number of quite important banking institutions have no arrangement for accident insurance....35
Medical expenses insurance....38
Over a half of banking entities researched in Italy are distributors of medical expenses insurance… 38
…and underwriters affiliated to the country's large retail banks largely dominate the market... 38
… albeit Europ Assistance is ranked fifth by weighted share of partnerships....38
Other captives include Cardif, Carige Assicurazioni and Mediolanum Assicurazioni....38
Over 20 banking entities with more than 250,000 customers do not distribute this type of cover....38
Health / hospital cash plans 40
Stand-alone health or hospital cash plans are offered by a minority of banking organisations....40
RBM Salute, a specialist provider, benefits from one major partnership in this field....40

…and seven other external underwriters also claim at least one exclusive partnership 40
Performance of key bancassurance underwriters 42
Bank-owned underwriters grew their total market share of accident cover in each year from 2008 to 2012... 42
... but in aggregate they have lost ground recently in health insurance 42
6.0 PERSONAL MOTOR AND HOUSEHOLD INSURANCE 44
Insurance market size and growth 44
Personal motor insurance premiums declined in both nominal and real terms between 2009 and 2013 44
Distribution share of banks 45
Banks are making steady progress as distributors in both motor and property insurance 45
Bancassurance provision rates, operating models and partnerships 46
Personal motor insurance 46
More than 50 of the banking institutions surveyed are active in the promotion of personal motor insurance 46
Intesa Sanpaolo Assicura and Poste Assicura can access the distribution networks with most potential 46
Genertel has secured distribution relationships with several significant regional banks 46
Two joint venture underwriters also feature prominently in this arena 46
Other providers with important relationships include Assimoco, Direct Line and Allianz 46
Entities not distributing personal motor insurance include 19 with more than 250,000 retail customers 47
Household insurance 49
Most banking institutions offering household cover do so in conjunction with a single, external underwriter 49
This market is mainly dominated by underwriters owned or co-owned by Italy's large banks... 49
... albeit Europ Assistance is ranked in third position by weighted share of partnerships... 49
... and as many as 21 different providers are neither captives nor joint ventures 49
Lending institutions that do not sell household insurance are mainly those that do not offer mortgages 50
Performance of key bancassurance underwriters 52
Carige Assicurazioni holds the highest market share among bank-owned underwriters in motor insurance 52
... and also in total property insurance, as a result of selling via agents as well as bank branches 52
7.0 CREDITOR INSURANCE 54
Consumer lending market size and growth 54
Mortgage lending 54
Despite the economic turmoil, mortgage balances outstanding have remained fairly stable... 54
Non-mortgage lending 55
... albeit the value of total non-mortgage consumer lending has fallen back since 2011 55
Credit and other pay later cards 56
The number of credit cards in circulation has declined rapidly in recent years 56
Creditor insurance provision rates, operating models and partnerships 57
Creditor insurance linked to mortgages 57
A wide range of operating models is used to source mortgage-related creditor insurance in Italy... 57
... as policies are often underwritten by life and non-life insurers acting in concert 57
UniCredit Banca's complicated arrangements involve the use of multiple joint venture underwriters 58
Over 20 external providers of mortgage-related creditor insurance claim at least one relationship 58
Assimoco co-operates in this area with as many as 13 of the lending institutions investigated 58
Creditor insurance linked to consumer finance 60
Loan payment protection insurance is available from the vast majority of relevant lending institutions... 60
... with Cardif especially prominent in this arena 60
... and MetLife also a significant competitor 60
Once again, a large number of captive and joint venture underwriters are in evidence... 60
... a number of which are domiciled outside of Italy itself 60
The competition among non-captives is as fragmented and intense as it is for mortgage-related cover 61
Lending institutions with no arrangement in this area are all comparatively minor entities 61
Creditor insurance linked to credit cards 63
Credit card payment protection insurance is less commonly marketed by card issuers in Italy... 63
... and three providers are dominant by weighted share of partnerships 63

Creditor insurance risk coverage....65
In all segments, close to 90% of policies analysed cover temporary incapacity and unemployment....65
Creditor insurance market size, growth and forecast....66
As the lending sector has slowed, growth in the related insurance market has decelerated in recent years....66
… and this trend seems likely to persist through to 2017....67

LIST OF GRAPHICS / TABLES

0.0 EXECUTIVE SUMMARY 1
Overview of bancassurance provision rates for different types of insurance in Italy, 2014 2
1.0 INTRODUCTION 3
Banks and other lending institutions in Italy contacted by Finaccord, segmented by type 4
