<b>0.0 EXECUTIVE SUMMARY.....</b>	<b>2</b>
<i>Branding influences choice of financial services provider for two out of every three consumers .....</i>	<i>2</i>
<i>Visa, Lloyds TSB, Barclaycard, the AA and Halifax are the most well-recognised brands overall. ...</i>	<i>2</i>
<i>... although the results vary when analysed by gender, age group and annual household income ...</i>	<i>3</i>
<i>More recently-established brands score highly for modernity and ability to excite. ...</i>	<i>3</i>
<i>... while more traditional names score highly for consumer perceptions of trustworthiness. ...</i>	<i>3</i>
<i>... albeit the brands of on-line aggregators are associated closely with value for money.....</i>	<i>3</i>
<i>Trustworthiness and commitment to ethical or socially responsible values are closely correlated.....</i>	<i>4</i>
<i>Among brands created since 1998, MORETH&gt;N possesses the greatest implied effectiveness.....</i>	<i>4</i>
<i>Across all brands, Direct Line achieves the highest score for reported effectiveness in practice. ....</i>	<i>4</i>
<i>... and a number of other brands appear to be significantly more effective in practice than in theory</i>	<i>5</i>
<i>The effectiveness of the MINT brand is skewed sharply towards females and younger customers ...</i>	<i>5</i>
<i>Barclays has made progress in reversing aspects of its brand that were formerly weak.....</i>	<i>5</i>
<i>The most effective brands tend to possess a well-balanced set of attributes. ...</i>	<i>6</i>
<i>... while others are undone by poor consumer perception in certain areas. ...</i>	<i>6</i>
<i>... and others still face a more general challenge to transform their image in the eyes of cons. ....</i>	<i>6</i>
<i>The brands of the leading on-line aggregators of financial services are increasingly effective.....</i>	<i>6</i>
<i>Brands are created through a range of variables in addition to advertising. ...</i>	<i>7</i>
<i>... which signifies that multiple steps may be required in order to improve brand effectiveness .....</i>	<i>7</i>
<b>1.0 INTRODUCTION.....</b>	<b>9</b>
<b>Research rationale .....</b>	<b>9</b>
Five key reasons underpin the production of the new <i>Brand Metrics</i> research .....	9
Brand is a significant factor in choice of financial provider for two in every three consumers.....	9
<b>What are the characteristics of an effective financial services brand?.....</b>	<b>11</b>
Finaccord has identified nine criteria that combine to determine brand effectiveness .....	11
<b>Research sample .....</b>	<b>13</b>
<b>Research mechanics .....</b>	<b>14</b>
Nine groups of consumers, averaging over 500 in size, have each evaluated ten brands. ...	14
... with an array of new brands having been included in the latest research program .....	14
<b>Research structure.....</b>	<b>16</b>
<b>Analytical differences .....</b>	<b>19</b>
<b>Finaccord .....</b>	<b>20</b>
<i>Other UK consumer research publications .....</i>	<i>20</i>
<i>UK affinity and partnership marketing publications.....</i>	<i>21</i>
<b>IPT / Tpoll .....</b>	<b>21</b>
<b>2.0 BRAND RANKINGS.....</b>	<b>24</b>
<b>Introduction .....</b>	<b>24</b>
Nine criteria are used to determine the effectiveness of financial brands. ...	24
... with positive average scores recorded for each other than ability to excite.....	24
Trustworthiness and ability to offer value for money are deemed most important by consumers .....	26
<b>Awareness .....</b>	<b>28</b>
<i>Overall sample.....</i>	<i>28</i>
Visa is the brand with the highest level of consumer awareness in the UK. ...	28
... with other credit card marques and major high street banks also scoring highly .....	28

**BRAND METRICS: CONSUMER AWARENESS OF AND ATTITUDES TOWARDS BRANDS IN UK FINANCIAL SERVICES**

Among brands created in the last decade, MORETH>N is now the most widely recognised .....28  
*Analysis of results by gender* .....31  
 Among female respondents, Lloyds TSB is the brand achieving the highest recognition rate... ..31  
 ... although comparethemarket.com is the brand with the greatest outright female bias .....36  
*Analysis of results by age group* .....37  
 Only Barclaycard and Lloyds TSB feature in the top five among respondents in both age groups...37  
 comparethemarket.com, MINT and Privilege are all heavily oriented to younger consumers.....42  
*Analysis of results by annual household income* .....43  
 Among respondents with a lower annual household income, Halifax manages the highest score...43  
 Most brands achieve stronger recognition among those with higher annual household income .....48  
**Strength**.....50  
 Visa and MasterCard occupy the top two positions in terms of consumer perception of strength ...50  
 Northern Rock’s difficulties have resulted in extremely negative perception of its brand .....53  
**Accessibility** .....54  
 In terms of consumer perception of accessibility, the AA achieves the strongest score .....54  
 Relative to its awareness rating, comparethemarket.com achieves a high score for accessibility...57  
**Modernity** .....58  
 Virgin Money and Sheilas’ Wheels are viewed by consumers as the most modern brands. ....58  
 ... with Direct Line rated as the most modern among brands with at least a decade of longevity....58  
 There is no apparent correlation between brand modernity and overall awareness .....61  
**Ability to excite**.....62  
 Most financial services brands are perceived by consumers as being either quite or very dull. ....62  
 ... although Sheilas’ Wheels is the brand arousing the most excitement among consumers .....62  
 Brands that are perceived to be modern are also those most likely to excite consumers.....65  
**Trustworthiness** .....66  
 The AA and the RAC are identifiable as the most trusted financial brands in the UK... ..66  
 ... with MasterCard, Nationwide and the Co-operative Bank also scoring highly for this factor .....66  
 Brands associated with lending products must work harder to earn the trust of consumers .....69  
**Value for money** .....70  
 The Nationwide brand comprehensively outflanks its high street banking rivals for this factor. ....70  
 ... and it is significant that the brands of on-line aggregators occupy four of the top ten positions...70  
 Brands that are closely associated with credit cards face particular difficulties in this arena .....70  
 Combining trust with the perception of offering value for money is a key branding objective .....73  
**Commitment to ethical or socially responsible values** .....74  
 The Co-operative Bank remains closely associated with ethical and socially responsible values.....74  
 Several other high street banking brands score more highly than might have been anticipated.....74  
 Trustworthiness and perceived commitment to ethical or socially responsible concerns are linked .77  
**Likeability** .....78  
 Likeability appears largely to be an amalgam of the other factors considered. ....78  
 ... which means that brands with a well-balanced set of attributes emerge as the most liked .....78  
**Implied brand effectiveness**.....81  
 Implied effectiveness is highest for the AA, Nationwide, RAC, Direct Line and Visa brands... ..81  
 ... with MORETH>N and Confused.com scoring most highly among recently established brands..81  
**Reported brand effectiveness** .....84  
*Overall sample* .....84  
 In terms of its reported effectiveness, Direct Line beats its rivals into pole position.....84  
 The moneysupermarket.com brand is far more effective in practice than in theory... ..87  
 ... while the Abbey brand is the least effective in practice relative to its theoretical strength .....87  
*Analysis of results by gender* .....89  
 Four brands rank among the top five by reported effectiveness among both males and females ....89  
 The MINT brand generates a particularly high score for reported effectiveness among females .....94  
*Analysis of results by age group* .....95  
 The Nationwide brand achieves the highest reported effectiveness among the over-45 group .....95  
 MoneyExpert and moneysupermarket.com are effective at different ends of the age spectrum.... 100

## BRAND METRICS: CONSUMER AWARENESS OF AND ATTITUDES TOWARDS BRANDS IN UK FINANCIAL SERVICES

<i>Analysis of results by annual household income .....</i>	<i>101</i>
Four brands feature within the top five for both of the annual household income groups .....	101
