TABLE OF CONTENTS

0.0 EXECUTIVE SUMMARY	2
<i>There is considerable scope for growth in creditor insurance in all markets other than Germany... ..</i>	<i>2</i>
<i>... with the market value already having reached €9.40 billion in gross written premiums in 2007.....</i>	<i>2</i>
<i>... within which cover for temporary incapacity and unemployment makes up a significant amount.....</i>	<i>3</i>
<i>Consumer lending markets have made notable advances in all territories other than Germany.....</i>	<i>3</i>
<i>Creditor insurance can provide a valuable source of commissions to banks and other lenders.....</i>	<i>3</i>
<i>Providers of creditor insurance can be grouped into five main categories.....</i>	<i>4</i>
<i>Captive underwriters of creditor insurance are most widespread in Denmark, Norway and Poland</i>	<i>4</i>
<i>Beyond the short term, the outlook for creditor insurance in the region remains positive... ..</i>	<i>5</i>
<i>... with a number of factors throwing up opportunities for new distribution relationships.....</i>	<i>5</i>
1.0 INTRODUCTION	7
Rationale.....	7
Across 18 European countries, creditor insurance was worth around €35.1 billion in 2007	7
... although it remains a poorly documented market for a variety of reasons.....	7
Finaccord.....	8
PartnerBASE™	9
Methodology	10
The research is based on a survey covering 528 banks and other lending institutions	10
Definitions	10
2.0 REGIONAL OVERVIEW	13
Introduction.....	13
Market analysis - lending.....	14
Robust growth in all countries other than Germany boosts balances outstanding to €2.65 trillion	14
Five countries see mortgage balances expand at an average annual rate in excess of 10%.....	16
Norway and Sweden both experience a surge in retail non-mortgage credit outstanding.....	18
lending markets in Northern and Central Europe can be grouped into three main categories.....	19
Retail lending markets in Northern and Central Europe can be grouped into three main categories	20
Switzerland's huge mortgage market makes it the region's largest in per capita terms	23
although mortgage balances per capita remain below €2,000 in four of the countries analysed	24
... although mortgage balances per capita remain below €2,000 in four of the countries analysed	25
Owner occupation rates exceed 75% in Hungary, Norway, Poland and Slovakia.....	27
Retail non-mortgage balances per capita in Norway are almost 50% higher than in Denmark	28
Non-mortgage credit increases as a proportion of total retail lending in the Nordic countries	30
Credit and other pay later cards issued advance most rapidly in the Czech Republic.....	32
... while Poland's market has accelerated past Norway, Sweden and Switzerland in recent years	35
In per capita terms, Germany's market for credit cards could soon be the region's least developed	36
Market analysis - creditor insurance.....	38
A dearth of published market and competitor data makes creditor insurance difficult to measure	38
Broadly defined, the total market is worth in the region of €9.40 billion in gross written premiums.....	39
Narrowly defined, six of the ten nations now possess a market valued at more than €100 million.....	39
Mortgage-related policies represent the largest component of the market when defined broadly	40
The German market for creditor insurance dwarfs those which exist elsewhere in the region.....	41
... whether defined in broad or narrow terms	43
Markets can also be measured as a percentage of total life, accident and health insurance.....	45

CREDITOR INSURANCE IN NORTHERN AND CENTRAL EUROPE

Creditor insurance is likely to have grown most rapidly in Hungary over the 2003-7 period	46
Most creditor insurance policies are organised by means of a link with a single, external partner	48
... although captive insurers have at least some presence in all countries other than Switzerland	48
International competitors - creditor insurance	51
Competitors in creditor insurance in Europe can be segmented into five main categories	51
APRIL Financial Services is seeking to position itself as a leading independent provider.....	51
... and is a sister company to Axéria Prévoyance within France's fast-growing April Group	51
Cardif secured almost €2.9 billion in gross premiums written from creditor insurance in 2007... ..	52
... with a 25% growth rate in international markets excluding the Netherlands and the UK.....	52
Genworth Financial underwrites payment protection policies in 17 territories other than the US.....	52
... with a sales strategy based on over 600 bancassurance and other distribution relationships	52
3.0 AUSTRIA	54
Introduction to the banking sector	54
The Austrian retail lending market is populated by a variety of different types of competitor	54
Market analysis - lending	55
Retail mortgages and consumer credit in Austria continue to make solid progress.....	55
... although the market for credit cards is characterised by very modest growth	56
Product analysis - creditor insurance	57
Provision of creditor insurance is almost ubiquitous for mortgages and personal loans in Austria	57
Over three quarters of Austrian lending institutions offer fully comprehensive creditor insurance	58
Competitor analysis - creditor insurance	59
Captive and joint venture underwriters play a relatively limited role in the creditor insurance sector	59
Few underwriters of creditor insurance lay claim to three or more bank distribution relationships.....	61
Vienna Insurance Group has acquired majority stakes in the insurers belonging to Erste Bank	61
Cardif is identifiable as the most prolific partner in loan payment protection insurance	61
Vienna Insurance Group also controls the bancassurance subsidiary of UniCredit's Bank Austria.....	61
Market analysis - creditor insurance	63
Future outlook	65
The mature characteristics of the market may enhance competition among incumbent suppliers.....	65
4.0 CZECH REPUBLIC	67
Introduction to the banking sector	67
Retail banking in the Czech Republic is largely dominated by entities owned by foreign parents... ..	67
... with many overseas firms now seeking to assert themselves in different market segments	67
PPF Group, the owner of Home Credit, is the main competitor remaining under Czech ownership	67
Market analysis - lending	68
Growth in retail lending in the Czech Republic shows no signs of abating... ..	68
... and the credit card market continues to soar in terms of the number of cards issued	69
Provision of creditor insurance linked to credit cards is relatively common in the Czech Republic.....	70
Fully comprehensive payment protection insurance is now the norm in the Czech Republic.....	71
Competitor analysis - creditor insurance	72
Tied relationships with external underwriters account for most deals for creditor insurance... ..	72
... although Home Credit's use of Česká Pojišťovna in addition to Cardif is a hybrid model.....	72
Cardif Pro Vita has established itself as the leading specialist provider in the Czech Republic... ..	74
... and is growing its gross premium income at an average annual rate in excess of 30%.....	74
Market size - creditor insurance	76
Future outlook	78
Beyond the short term, the prospects for creditor insurance remain apparently favourable.....	78
5.0 DENMARK	80
Introduction to the banking sector	80

CREDITOR INSURANCE IN NORTHERN AND CENTRAL EUROPE

Denmark is populated by a relatively high number of lending institutions in spite of its small size.....	80
Market analysis - lending	81
Both mortgage and non-mortgage balances grow at an annual average in excess of 10.0%.....	81
... although only a minority of consumers have taken out a credit or other pay later card	82
Product analysis - creditor insurance	83
Creditor insurance, narrowly defined, is less widespread in Denmark than elsewhere in Europe... ..	83
... although some banks promote økonomisikring which can sometimes be tied to loan repayments..	83
Creditor policies covering temporary incapacity and unemployment are restricted to certain lenders....	85
Competitor analysis - creditor insurance	86
Single partnerships and captive insurers account for all creditor insurance provision in Denmark	86
Non-captive distribution deals are concentrated among a relatively small pool of underwriters	87
Market size - creditor insurance	89
Future outlook	91
Relative to the size of the protection market, creditor insurance has seen limited development	91
6.0 GERMANY	93
Introduction to the banking sector	93
Germany's crowded retail banking sector is entering a fresh round of restructuring	93
... with a number of the country's landesbanken having run into financial difficulties	93
The credit co-operatives have been subject to significant rationalisation in recent years	94
Foreign entrants show that reasonable returns can be generated from German retail banking... ..	94
... with the financial arms of BMW, Daimler and Volkswagen having also broadened their remit	94
The Bauspar system plays a fundamental role in the German residential mortgage lending market.....	95
Market analysis - lending	96
Most German consumers remain reluctant to accumulate either mortgage or non-mortgage debt	96
... and the number of credit and other pay later cards issued has shown little progress since 2003.....	97
Product analysis - creditor insurance	98
Programs for credit card payment protection insurance remain comparatively scarce in Germany	98
The percentage of lending institutions offering redundancy cover has almost doubled since 2003 ...	100
Competitor analysis - creditor insurance	101
A majority of initiatives for creditor insurance are organised through a single, external underwriter... ..	101
... although use of multiple partners is more common for mortgage payment protection insurance ...	101
APRIL Financial Services is the leading independent provider of creditor insurance in Germany.....	101
Public sector savings banks display an increasing propensity to work with alternative underwriters...	103
Cardif continues to occupy a position of leadership in Germany's creditor insurance market... ..	103
... although numerous other specialist and composite insurers compete for distribution mandates ...	104
Market size - creditor insurance	106
Future outlook	108
The continuing rationalisation of the German banking sector may throw up new opportunities.....	108
7.0 HUNGARY	110
Introduction to the banking sector	110
Numerous foreign entrants chase opportunities in Hungarian retail banking... ..	110
... although the independent OTP Bank retains market leadership in many segments	110
Overseas competitors lessen concentration and improve efficiency in Hungarian banking... ..	110
... but some participants may be forced to exit the market as competition intensifies	110
Market analysis - lending	111
Consumer credit balances in Hungary expand at an average rate per annum in excess of 30.0%... ..	111
... fuelled in part by the rapid progress made by the market for credit and other pay later cards	112
Product analysis - creditor insurance	113
The number of initiatives for creditor insurance in Hungary has risen sharply in recent years	113
Policies covering temporary incapacity and unemployment are becoming more widespread	114

Competitor analysis - creditor insurance	115
Most lending institutions have chosen to collaborate with a single, external underwriter	115
... with some insurers having built up relationships with several bancassurance partners.....	116
... although others are limited to a single partnership	116
A key event was the acquisition of 100% of OTP Garancia by Groupama in February 2008	116
Market size - creditor insurance	118
Future outlook	120
Beyond the short term, the outlook for further growth of creditor insurance in Hungary is favourable.	120
8.0 NORWAY	122
Introduction to the banking sector	122
Market analysis - lending	123
The Norwegian market for consumer credit grows at over twice the rate of mortgage lending	123
... with cards per capita standing far ahead of the rest of Northern and Central Europe.....	124
Product analysis - creditor insurance	125
Payment protection policies are most commonly offered by lending institutions offering home loans.	125
Typically, creditor insurance propositions in Norway provide comprehensive cover to borrowers.....	126
Competitor analysis - creditor insurance	127
Frende Forsikring was established as a new competitor in 2007 by a consortium of savings banks ..	127
Both Frende Forsikring and Gjensidige NOR also possess several non-captive partnerships	128
Genworth Financial and Marsh are influential for policies linked to personal loans and credit cards... ..	128
Cardif began operating in the Norwegian market for protection policies as recently as 2007	128
Market size - creditor insurance	130
Future outlook	132
Several factors may cause the creditor insurance sector to develop from its current level	132
9.0 POLAND	134
Introduction to the banking sector	134
Numerous overseas organisations have entered Poland's consumer lending sector... ..	134
... although a number of significant lending institutions remain under local ownership	134
Market analysis - lending	135
Mortgage lending overtakes consumer credit in terms of balances outstanding in 2006	135
Credit and other pay later cards per capita reach 0.21 in 2007 but should continue to grow rapidly ...	136
Product analysis - creditor insurance	137
The provision of creditor insurance by Polish lending institutions has risen sharply since 2005... ..	137
... with the proportion of policies incorporating cover for unemployment also having increased	138
Competitor analysis - creditor insurance	139
Several captive underwriters are active in Poland's market for payment protection insurance.	139
... with Europa achieving particularly strong growth as a result of its focus on bank distribution	139
Growth opportunities in Polish creditor insurance attract a large number of competing insurers.....	141
Banking institutions commonly co-operate with different underwriters for different forms of policy.....	141
Genworth Financial had accumulated over 700,000 policyholders by the fourth quarter of 2007.....	141
Market size - creditor insurance	143
Future outlook	145
Several underwriters are well-placed to benefit from the future development of creditor insurance ...	145
10.0 SLOVAKIA	147
Introduction to the banking sector	147
Foreign banks dominance retail banking in Slovakia... ..	147
... with five captive finance arms belonging to car manufacturers having commenced operations	147
Market analysis - lending	148

CREDITOR INSURANCE IN NORTHERN AND CENTRAL EUROPE

Both mortgage and non-mortgage credit expand at an average rate per annum in excess of 30%....	148
The number of credit cards in circulation is likely to have exceeded one million during 2007	149
Product analysis - creditor insurance	150
A majority of lending entities in Slovakia now operate programs for payment protection insurance....	150
Coverage for unemployment is included within over three quarters of policies marketed	151
Competitor analysis - creditor insurance	152
Single partnerships represent the preferred operating model for most lending institutions... ..	152
... with Cardif having been central to the development of comprehensive policies in Slovakia	153
Market size - creditor insurance	155
Future outlook	157
Although the smallest market, the outlook for creditor insurance in Slovakia remains promising	157
11.0 SWEDEN	159
Introduction to the banking sector	159
A variety of second tier banks and specialised lenders challenge the big four banking groups... ..	159
... with six automotive brands having set up captive or joint venture finance entities in Sweden	159
Market analysis - lending	160
Non-mortgage credit surges at an average rate per annum of 25.0%.....	160
... although the market for credit cards has made limited progress only in recent years.....	161
Several schemes for credit card payment protection insurance have begun in recent years.....	162
The vast majority of creditor insurance policies offered by Swedish lenders are fully comprehensive	163
Competitor analysis - creditor insurance	164
Several major lending institutions source creditor insurance from captive underwriting entities... ..	164
... although GE Money Bank and Nordea utilise a co-insurance model with Genworth Financial.....	164
Cardif Nordic and Genworth Financial account for the vast majority of external relationships	166
Aon Sweden acts as an administrator of payment protection insurance for several institutions	166
Market size - creditor insurance	168
Future outlook	170
Several competitors are helping comprehensive creditor insurance to make progress in Sweden	170
12.0 SWITZERLAND	172
Introduction to the banking sector	172
Six main categories of bank compete for retail lending business in Switzerland.....	172
The cantonal banks collectively hold a share of over one third of mortgage balances	172
29 regional and savings banks operating 122 branches are affiliated to Clientis	172
If viewed as a single entity, the Raiffeisen banks are country's third largest grouping.....	173
Swiss One Finance was formed as a result of a three-way merger in February 2008	173
Market analysis - lending	174
Non-mortgage credit accounts for only a little over 10% of total retail lending in Switzerland	174
New co-branded cards launched by Coop Schweiz and Migros help to redefine the market	175
Market analysis - creditor insurance	176
Banks with no payment protection offering are mainly smaller local and savings banks.....	176
Provision of cover for temporary incapacity and unemployment has advanced in recent years	178
Competitor analysis - creditor insurance	179
Many of Switzerland's cantonal banks source insurance products through Swiss Canto	179
Several providers of creditor insurance possess multiple bancassurance relationships	180
Many banks intermediate unsecured personal loans sourced from centralized lending entities.....	180
Market size - creditor insurance	182
Future outlook	184
More propitious conditions are emerging for the promotion of creditor insurance in Switzerland	184
