TABLE OF CONTENTS

0.0 EXECUTIVE SUMMARY	2
<i>In recent years, the creditor insurance markets of Italy and Spain have advanced most rapidly</i>	<i>2</i>
<i>Across all eight nations, the market reached €25.69 billion in gross written premiums in 2007.....</i>	<i>2</i>
<i>... within which cover for temporary incapacity and unemployment makes up a significant amount.....</i>	<i>3</i>
<i>A reduction in growth for creditor policies will inevitably occur in the short to medium-term future</i>	<i>3</i>
<i>Creditor insurance can provide a valuable source of commissions to banks and other lenders.....</i>	<i>3</i>
<i>Providers of creditor insurance can be grouped into five main categories.....</i>	<i>4</i>
<i>Captive underwriters of creditor insurance are most widespread in Belgium and Portugal.....</i>	<i>4</i>
<i>In several countries, more emphasis will be placed on product design, pricing and distribution... ..</i>	<i>4</i>
<i>... creating opportunities for alternative intermediaries and underwriters of creditor insurance</i>	<i>5</i>
<i>... with a number of factors throwing up opportunities for new distribution relationships.....</i>	<i>5</i>
1.0 INTRODUCTION	7
Rationale.....	7
Across 18 European countries, creditor insurance was worth around €35.1 billion in 2007.....	7
... although it remains a poorly documented market for a variety of reasons.....	7
Finaccord.....	8
PartnerBASE™	9
Methodology	10
The research is based on a survey covering 568 banks and other lending institutions.....	10
Definitions	10
2.0 REGIONAL OVERVIEW	13
Introduction.....	13
Market analysis - lending.....	14
Total retail lending balances approach €5 trillion in Southern and Western Europe.....	14
The impact of the international ‘credit crunch’ will reduce mortgage growth rates during 2008... ..	16
... with a similar effect being felt in Southern and Western Europe’s non-mortgage credit sector.....	18
rates for total retail lending balances differ substantially from country to country.....	20
Growth rates for total retail lending balances differ substantially from country to country.....	21
In terms of total retail lending per capita, Ireland surges ahead of the Netherlands and the UK.....	24
Average residential mortgage balances per capita in Italy remain stubbornly low... ..	26
... in spite of the fact that owner occupation rates are comparatively high.....	28
Consumer credit per capita in Spain overtakes the UK although remains below Ireland.....	29
Non-mortgage credit declines as a proportion of total retail lending in all countries in the region	31
Rapid growth in credit cards in Portugal and Spain offsets weaker progress elsewhere	33
... with the number of cards issued in the UK remaining virtually static between 2003 and 2007	36
Pay later cards per capita in Spain could soon reach the levels of France and the UK.....	37
Market analysis - creditor insurance.....	39
A dearth of published market and competitor data makes creditor insurance difficult to measure	39
Broadly defined, the total market is worth in the region of €25.69 billion in gross written premiums.....	40
Narrowly defined, the UK accounts for a higher proportion of the regional total.....	40
Mortgage-related policies represent the largest component of the market when defined broadly	41
The high value of mortgage-related creditor insurance boosts the size of the French market... ..	42
while the UK holds a disproportionately large market for loan payment protection insurance	43
... while the UK holds a disproportionately large market for loan payment protection insurance.....	44

CREDITOR INSURANCE IN SOUTHERN AND WESTERN EUROPE

can also be measured as a percentage of total life, accident and health insurance	45
Markets can also be measured as a percentage of total life, accident and health insurance.....	46
Creditor insurance is likely to have grown most rapidly in Spain over the 2003-7 period	47
Most creditor insurance policies are organised by means of a link with a single, external partner.....	48
... although captive insurers are present in all eight countries and joint venture entities in four.....	48
International competitors - creditor insurance.....	51
Competitors in creditor insurance in Europe can be segmented into five main categories	51
APRIL Financial Services is seeking to position itself as a leading independent provider.....	51
... and is a sister company to Axéria Prévoyance within France's fast-growing April Group	51
Cardif secured almost €2.9 billion in gross premiums written from creditor insurance in 2007... ..	52
... with a 25% growth rate in international markets excluding the Netherlands and the UK.....	52
Genworth Financial underwrites payment protection policies in 17 territories other than the US.....	52
... with a sales strategy based on over 600 bancassurance and other distribution relationships	52
3.0 BELGIUM	54
Introduction to the banking sector.....	54
In spite of substantial restructuring, Belgium's banking market remains crowded	54
Dexia, Fortis, ING and KBC lead the way... ..	54
... although numerous medium-sized and small banking ventures challenge their dominance.....	54
Market analysis - lending	56
Retail mortgages and consumer credit in Belgium continue to make solid progress... ..	56
... although credit and other pay later cards per capita remain relatively low at 0.35 in 2007.....	57
Approaching one half of card issuers have developed an option for payment protection insurance	58
A number of smaller lending institutions promote comparatively simple creditor insurance policies	59
Competitor analysis - creditor insurance.....	60
Banque CPH and Crédit Agricole have both launched new captive underwriting entities.....	60
For mortgage-related policies, partnerships are limited to smaller and medium-sized lenders... ..	62
... although Cardif has carved out a leadership position in personal lending / motor finance	62
Several other underwriters of creditor insurance hold one major relationship each in Belgium	62
Market size - creditor insurance	64
Future outlook	66
Policies linked to mortgages and consumer finance may continue to deliver reasonable growth.....	66
4.0 FRANCE.....	68
Introduction to the banking sector.....	68
Mutual and co-operative banks continue to play a substantial role in French retail banking... ..	68
... although they face competition in the retail lending sector from a variety of different quarters.....	68
Market analysis - lending	69
Home loans continue to outpace non-mortgage credit in the French retail lending market... ..	69
... with credit and other pay later cards in circulation moving up at a steady rate... ..	70
... assisted by a change in co-branding rules that occurred during the second half of 2007	70
Product analysis - creditor insurance.....	72
Several lending institutions in France do not offer payment protection insurance.....	72
Over three quarters of creditor insurance policies in France incorporate cover for unemployment	73
Competitor analysis - creditor insurance.....	74
Captive underwriters are less influential in creditor insurance than in mainstream bancassurance	74
Banque Accord began underwriting creditor policies through Dublin-based captives in July 2008.....	74
... following the lead of Finaref whose captives are generating strong growth in France and abroad....	74
AXA and CNP remain the dominant providers of creditor insurance in the French market... ..	76
... with sales of creditor insurance boosting the performance of CNP both at home and abroad.....	76
Five other underwriters also lay claim to two or more exclusive distribution mandates in France	76
April Assurances has positioned itself as a leading independent distributor of creditor insurance.....	77

CREDITOR INSURANCE IN SOUTHERN AND WESTERN EUROPE

With Aviva Emprunteur, Aviva Assurances is seeking to target under-served market segments.....	77
Market size - creditor insurance	79
Future outlook	81
A variety of factors are causing changes in the way in which creditor insurance is sold in France.....	81
Credit brokers hold a relatively low distribution share of mortgage and non-mortgage lending	81
5.0 IRELAND.....	83
Introduction to the banking sector.....	83
A variety of lending institutions owned by foreign parents challenge the traditional incumbents.....	83
Credit unions also play a significant role in the Irish retail lending market	83
Market analysis - lending	84
Retail lending balances in Ireland more than double over the 2003-7 time frame... ..	84
... although the market for credit and other pay later cards records more modest progress.....	85
Product analysis - creditor insurance.....	86
Provision of payment protection cover by Irish lending institutions is close to universal... ..	86
... and the policies promoted in the market are, with only a few exceptions, fully comprehensive	87
Competitor analysis - creditor insurance.....	88
Captive underwriters are used for creditor insurance by several Irish banking institutions... ..	88
... although external insurers are likely to account for a majority of business underwritten.....	89
Assurant Solutions has entered the market through a pair of innovative distribution agreements.....	90
Market size - creditor insurance	92
Future outlook	94
The Financial Regulator has tightened up the rules for selling payment protection insurance.....	94
6.0 ITALY.....	96
Introduction to the banking sector.....	96
Four, or arguably five, retail banking groups lay claim to a genuinely nationwide network.....	96
... although these are being challenged by an array of ambitious regional competitors.....	96
... as well as several insurer-owned banks and banks falling under foreign ownership	96
Italy also plays host to a considerable number of specialised lending institutions.....	96
... including central card issuing entities and automotive finance captives and joint ventures	97
Market analysis - lending	98
Italy's retail lending market advances but remains relatively small in per capita terms.....	98
... although credit and other pay later cards per capita lie above several other countries.....	99
Product analysis - creditor insurance.....	100
A minority of card issuers have yet to establish a program for card payment protection insurance....	100
Comprehensive coverage within loan-related policies is now the norm in Italian creditor insurance ...	102
Competitor analysis - creditor insurance.....	103
A variety of operating models is in evidence for provision of payment protection insurance... ..	103
... although captives and joint ventures are in evidence for a number of major lenders.....	103
... with the duo of Eurizon Vita and Eurizon Tutela likely to be the largest of these.....	103
AXA MPS Assicurazioni and Chiara Vita have recently been reconfigured as joint ventures... ..	104
... as has CNP UniCredit Vita although it exerts influence on only a part of the UniCredit network	104
Banco Popolare has reorganized its insurance business with Fondiaria SAI and Aviva	104
Numerous underwriters continue to jostle for creditor insurance distribution mandates	106
Cattolica Assicurazioni announced a new joint venture with Iccrea Banca in August 2008	106
CNP possesses other bancassurance partners in Italy in addition to Cofidis and UniCredit.....	107
Genworth Financial and Net Insurance experience contrasting fortunes in the Italian market.....	107
Market size - creditor insurance	109
Future outlook	111
Credit intermediaries play a significant role in the mortgage and non-mortgage lending sectors... ..	111
... although the main battle will be to secure distribution through major banks and lending entities....	111

7.0 NETHERLANDS	113
Introduction to the banking sector	113
The integration of ABN AMRO and Fortis Bank brings about further market concentration.....	113
... albeit a number of smaller institutions offer increasing competition to the 'big three' ...	113
... and credit brokers account for a sizeable proportion of both mortgage and non-mortgage loans ..	113
Market analysis - lending	114
A highly developed mortgage sector outpaces non-mortgage credit in the Netherlands.....	114
... and consumer demand for credit and other pay later cards remains sluggish	115
Product analysis - creditor insurance	116
Lenders focused on distribution through intermediaries are less likely to offer creditor insurance.....	116
Typically, payment protection insurance policies in the Netherlands are fully comprehensive	118
Competitor analysis - creditor insurance	119
Lending entities have adopted a range of approaches to offering creditor insurance.....	119
ABN AMRO has announced its intention to terminate its joint venture with Delta Lloyd.....	119
The Warranty Group claims the highest number of exclusive links with Dutch lending institutions....	121
... although Cardif, Cassidy Davis and Genworth Financial are among its competitors in this area....	121
Cardif's gross premiums written in the Netherlands have contracted in recent years.....	121
... while those of CreditLife International have surged largely thanks to one major partnership	122
Market size - creditor insurance	123
Future outlook	125
The Dutch market for creditor insurance may struggle to deliver much organic growth	125
8.0 PORTUGAL	127
Introduction to the banking sector	127
For a relatively small market, Portugal's retail lending sector remains comparatively fragmented... ..	127
... although Cetelem and Groupe LaSer have agreed to combine their local subsidiaries	127
Market analysis - lending	128
The markets for mortgage and non-mortgage credit in Portugal deliver solid growth... ..	128
... and the number of credit and other pay later cards in circulation is expanding rapidly	129
Product analysis - creditor insurance	130
For forms of lending not linked to credit cards, payment protection insurance is widely offered	130
Portuguese banks are typically generous in packaging 'free' insurance with their credit cards	130
Over 80% of creditor insurance policies marketed in Portugal are fully comprehensive	132
Competitor analysis - creditor insurance	133
Captive insurers and joint ventures play a prominent role in Portuguese creditor insurance... ..	133
Cardif and Genworth Financial account for a majority of non-captive distribution partnerships	135
Market size - creditor insurance	136
Future outlook	138
Beyond the short term, the outlook for creditor insurance in Portugal seems fairly propitious	138
9.0 SPAIN	140
Introduction to the banking sector	140
The main wave of consolidation in Spanish retail banking has now taken place	140
Many of Spain's savings banks are characterised by an independent, entrepreneurial spirit	140
A number of overseas entrants play a significant role in the retail lending sector	140
Specialised lenders and automotive captives complete the list of potential creditor partners	141
Market analysis - lending	142
Lending to Spanish households continued to surge between 2003 and 2007... ..	142
... and rampant demand on the part of consumers spurs the credit card sector to similar heights	143
Product analysis - creditor insurance	144
Options for creditor insurance linked to mortgage and non-mortgage loans are ubiquitous	144

CREDITOR INSURANCE IN SOUTHERN AND WESTERN EUROPE

The availability of cover for unemployment has advanced rapidly in recent years.....	146
Competitor analysis - creditor insurance	147
Captives and joint ventures constitute an important feature of creditor insurance in Spain.....	147
... although some institutions outsource aspects of creditor insurance to external underwriters	147
AXA, Cardif and Caser rank among the leading underwriters of creditor insurance in Spain.....	150
... but face no shortage of competition from a variety of other specialist and non-specialist firms	150
Market size - creditor insurance	152
Future outlook	154
In spite of the inevitable decline in growth of retail lending, the market remains attractive... ..	154
... although the potential for distribution through credit brokers seems comparatively limited	154

10.0 UNITED KINGDOM..... 156

Introduction to the banking sector	156
Question marks hang over many medium-sized and smaller lending entities in the UK... ..	156
... although there is still no shortage of competitors in spite of the challenging market conditions	156
Market analysis - lending	157
The UK's over-blown consumer lending market begins to level off in the second half of 2007.....	157
... and the mature credit card market began to decline gently from 2005 onwards.....	158
Product analysis - creditor insurance	159
Payment protection cover continues to be marketed widely by lending institutions in the UK.....	159
... although several major players have discontinued sales of certain forms of creditor policy	159
The components of mortgage-related insurance are often sold on an unbundled basis in the UK.....	161
Competitor analysis - creditor insurance	162
A variety of operating models are in evidence for the provision of creditor insurance in the UK... ..	162
... with several of the larger lending institutions have elected to use captive underwriters.....	162
...as a means of enhancing the profits that they can generate from this activity.....	162
The leading competitors are being challenged by up to a further ten non-captive underwriters	164
Cardif Pinnacle and St Andrew's Group are prominent as partners in consumer finance markets	164
Direct Group and Paymentsshield are among firms exploiting other opportunities in the market... ..	165
... with Towergate having acquired both the latter company and British Insurance	165
Market size - creditor insurance	167
Future outlook	169
Regulatory factors may bring about substantial changes in the market for creditor insurance.....	169
... although latent demand among borrowers will produce opportunities for competitors	169
