<i>Over 60% of small businesses have taken out at least some form of business insurance.....</i>	<i>2</i>
<i>Public / product liability ins. is the type of cover most likely to be acquired by small businesses</i>	<i>3</i>
<i>Latent demand is highest for loss of driving / trading license insurance and key man cover</i>	<i>3</i>
<i>Cafés, hotels, pubs and restaurants are the most heavily insured category of small business</i>	<i>3</i>
<i>A growing proportion of small businesses acquire ins. for their business with total autonomy... ..</i>	<i>3</i>
<i>... and they also show a tend. to opt increasingly for cover that they consider completely flexible.....</i>	<i>4</i>
<i>Over a half of small businesses with insurance pay premiums in excess of £1,000 each year.....</i>	<i>4</i>
<i>Almost 40% of small businesses with insurance work with more than one insurance provider.</i>	<i>4</i>
<i>... which serves to further splinter a market that remains fragmented</i>	<i>5</i>
<i>The distribution share of Internet sales of small business cover has doubled since 2006... ..</i>	<i>5</i>
<i>... with direct purchase having usurped the previous dominance of insurance brokers... ..</i>	<i>5</i>
<i>... although with significant potential for online aggregators to exert an influence in this sector.....</i>	<i>6</i>
<i>Well over half of small businesses have taken out their main package during the last three years... .</i>	<i>6</i>
<i>... although propensity to switch provider appears to have diminished during the last two years.....</i>	<i>7</i>
<i>... and actual switching rates are low in comparison to personal motor and household insurance</i>	<i>7</i>
<i>Membership of professional and trade assoc. is much higher than for franchise organisations.....</i>	<i>7</i>
<i>Utilisation of commercial affinity groups to contract business insurance services is on the increase..</i>	<i>8</i>
<i>Among major providers, Co-operative Insurance attains the highest customer satisfaction ratings ...</i>	<i>8</i>
1.0 INTRODUCTION	10
Research rationale	10
<i>There are around 4.66 million enterprises with fewer than 100 employees in the UK</i>	<i>10</i>
<i>Using conventional techniques, the small business audience is tough to research... ..</i>	<i>12</i>
<i>... although the Internet methodology helps to circumvent many of the usual problems</i>	<i>12</i>
<i>The market for small business financial services is subject to rapid change</i>	<i>13</i>
Research sample	14
<i>The Internet research methodology is characterised by more advantages than drawbacks... ..</i>	<i>18</i>
<i>... including the fact that small businesses have more time to provide accurate responses</i>	<i>18</i>

2.0 INSURANCE OVERVIEW	22
Introduction	22
Holdings of any form of business insurance	25
<i>Hotels, restaurants, cafés and pubs are most likely to be covered by business insurance</i>	<i>25</i>
<i>Almost three quarters of uninsured small businesses believe that they have no need for ins.</i>	<i>28</i>
Holdings of specific forms of business insurance	31
<i>Product / public liability insurance is the most widely held form of cover among small businesses ..</i>	<i>31</i>
<i>The disparity between actual and desired cover is highest for loss of driving license insurance.....</i>	<i>31</i>
Specific business insurance products	36
<i>Holdings of forms of business insurance vary dramatically by type of enterprise.....</i>	<i>36</i>
Evaluation and purchasing methods for business insurance	89

Small businesses increasingly evaluate and purchase cover in a totally autonomous fashion	89
Expenditure on business insurance during last 12 months	90
Almost 50% of small businesses holding insurance pay annual premiums in excess of £1,000... ..	90
... although the sub-£500 expenditure market appears to be generating the most growth	91
Flexibility of main business insurance package	92
Cover acquired by small businesses is increasingly characterised by complete flexibility	92
Number of business insurance providers used	94
Around 40% of small businesses with cover use more than one provider of business insurance... ..	94
... a percentage that does not seem to have changed significantly during the last two years.....	97
Providers used for main business insurance package.....	98
The supply structure of the market for small business insurance remains relatively fragmented	98
Simply Business, an online broker belonging to Xbridge, emerges as the leading intermediary.....	98
Providers used for other business insurance policies	100
Norwich Union is comfortably the leader for apparent share of secondary relationships.....	100
Distribution interface used for main business insurance package	101
Inbound telephone sales continue to add up to account for the highest volumes of business... ..	101
... although the Internet is clearly gaining ground at the expense of other distribution interfaces... ..	104
Distribution channel used for main business insurance package.....	105
Direct purchase from underwriters now constitutes the most commonly used dist. system... ..	105
... having overtaken insurance brokers during the two years since the original research program	108
Bank used (where relevant) for main business insurance package.....	109
The research indicates that Barclays is the most effective commercial lines bancassurer	109
Interest in using online aggregators for business insurance	110
Well over half of small businesses appear open to the idea of using an online aggregator.....	110
Length of tenure of main business insurance package.....	111
Over a half of business insurance packages have been bought anew in the last three years	111
Likelihood of changing main business insurance package.....	112
Only a very small minority of the sample are definitely minded to change their ins. provider... ..	112
... and, if anything, small business propensity to switch appears to have lessened	115
Actual change of main business insurance package.....	116
The market for small business insurance is attractive due to its relatively low switching rate.....	116
Factors prompting change of main business insurance package.....	117
The availability of lower premiums are most likely to prompt a change of insurance provider.....	117
Satisfaction with services offered by main business insurance provider	118
The vast majority of small businesses are broadly satisfied with the cost of their insurance... ..	118
... and under 10% express concern with most other aspects of their main insurer's service	118
Membership of professional or trade associations	121
Businesses in the child or pet care category are most likely to belong to a trade association	121
Membership of franchise organisations.....	124
Over 5% of small businesses responding to the survey belong to a franchise organisation	124
Usage of commercial affinity groups to contract business insurance	127
The results suggest that usage of commercial affinity groups is continuing to make progress... ..	127
... although penetration rates vary considerably by category of small business	127
3.0 INSURER PERFORMANCE.....	131
Introduction	131
The satisfaction of small businesses using each of the leading providers can be measured... ..	131
