TABLE OF CONTENTS

0.0 EXECUTIVE SUMMARY	2
The number of mobile subscriptions continues to advance in all countries across Europe	2
The value of mobile telephone insurance was slightly in excess of €2 billion in 2008.....	3
... with cross-selling rates believed to be highest in the Netherlands and the UK.....	3
In certain countries, mobile network operators have not yet introduced insurance programs	3
Most insurance schemes are organised in conjunction with one external underwriter or broker.....	4
Bundling of mobile telephone insurance with banking products is common in France and the UK	4
Significant providers are identifiable at both multi-country and national levels	4
When mature, the market for mobile telephone insurance could triple from its current value.....	4
... thereby making a greater contribution to the financial profile of mobile network operators.....	5
1.0 INTRODUCTION	7
Rationale	7
There is considerable scope for future expansion in most European countries	7
Finaccord	7
PartnerBASE™	8
Methodology	9
The survey extends to all significant network operators and other distributors of mobile telephones ..	9
Definitions	11
The underwriting emphasis of mobile telephone insurance differs from other types of policy	11
2.0 EUROPEAN OVERVIEW	13
Introduction	13
Underlying market data	14
<i>Mobile telephones</i>	14
Mobile telephone subscriptions across the 18 countries reach almost 530 million in 2008... ..	14
... with Italy and Portugal leading the way in terms of mobile subscriptions per capita.....	16
Provision rates for mobile telephone insurance	18
<i>All distributors</i>	18
Schemes for mobile telephone insurance are most widespread in France, Ireland and the UK	18
<i>Mobile network operators</i>	20
All mobile network operators in four countries promote mobile telephone insurance.....	20
<i>Other distributors</i>	22
Retailers in Poland, the Czech Republic and Hungary are least likely to offer mobile insurance	22
Risk coverage of mobile telephone insurance	24
Mobile telephone insurance policies in the Netherlands offer the most comprehensive cover.....	24
Operating models for mobile telephone insurance	27
Providers adhere to a broad range of operating models for mobile telephone insurance.....	27
Estimated cross-selling rates for mobile telephone insurance	30
Cross-selling rates have advanced furthest in the UK but remain below 10% in most countries... ..	30
... which implies considerable apparent scope for future expansion.....	30
Estimated market size for mobile telephone insurance	32
The total market was worth in the region of €2.05 billion in gross premiums written in 2008.....	32
... although this could triple in value if rates of penetration reach the realistic maximum level.....	32
Gross premiums written per mobile telephone subscriber vary hugely from country to country.....	35
Mobile telephone insurance packaged with banking products	37

MOBILE TELEPHONE INSURANCE IN EUROPE

Packaged mobile telephone insurance is a significant market feature only in France and the UK ...	37
Other distribution channels for mobile telephone insurance	39
