<b>1.0 INTRODUCTION</b> .....	<b>6</b>
<b>Research rationale</b> .....	<b>6</b>
Several factors provide a rationale for developing the report and interactive database .....	6
<b>Research methodology</b> .....	<b>6</b>
The research methodology incorporates multiple inputs... ..	6
... including ONS, Experian, SSC, professional / trade association and other data, .....	7
... forecasts that take into consideration the challenging economy of 2008, 2009 and 2010, ... ..	7
... data from Finaccord’s own <i>Small Business Metrics</i> primary survey, .....	8
... assumptions regarding the inherent structural growth or decline of particular segments, .....	8
... 230 quotes for small business insurance policies obtained through ‘mystery shopping’, .....	9
... and the typical ‘insurance mix’ for the small business segment in question.....	10

<b>2.0 SEGMENT OVERVIEW</b> .....	<b>16</b>
<b>Number of enterprises by business sector</b> .....	<b>16</b>
At around 1.24 million, entities engaged in property management and rental are most numerous ..	16
Up to 2009, enterprises in the healthcare and related services sector grew most rapidly .....	16
Small manufacturing enterprises are forecast to continue declining most rapidly up to 2013 .....	19
<b>Number of enterprises by turnover band</b> .....	<b>21</b>
The majority of small businesses have an annual turnover of less than £100,000.....	21
... although their overall number is likely to have fallen between 2005 and 2009 .....	21
... and may only begin to grow again from 2012 onwards.....	23

The scrap and waste disposal services segment grew most rapidly between 2005 and 2009... ..25  
 ... with fuel retailers experiencing the sharpest drop in number over the same time frame.....25  
**Insurance expenditure by business sector .....27**  
 Several factors produce a ‘small business insurance market’ size of almost £5.0 billion.....27  
 ... with gross premiums written growing to a greater or lesser extent across all sectors .....27  
 Three sectors will produce average annual growth in excess of 5% between 2009 and 2013 .....30  
**Insurance expenditure by turnover band .....32**  
 Small businesses with a turnover of up to £100,000 generate less than 20% of the market value...32  
 The insurance expenditure of enterprises in the higher turnover band will grow most rapidly.....34  
 Three segments saw average annual growth in insurance spend of more than 8% up to 2009.....36  
 The value of insurance acquired by newsagents and sub post offices is in perpetual decline .....36  
**Average insurance expenditure per insured enterprise by business sector .....38**  
 Firms in the professional or financial services sector spend the most on business insurance .....38  
 Among enterprises with a turnover of less than £100,000, average expenditure works out at £388 41
