TABLE OF CONTENTS

0.0 EXECUTIVE SUMMARY	1
<i>Research background and structure</i>	2
<i>Four of the financial products investigated are held by a majority of respondents</i>	2
<i>High volumes of sales each year are driven by high levels of switching...</i>	2
<i>... although switching rates have fallen for lending products amid the credit crisis</i>	3
<i>Face-to-face distribution remains important for banking products and related insurance...</i>	3
<i>... while the Internet is still increasing its share of motor and household insurance</i>	3
<i>Though inbound telephone sales are in decline, outbound telephone sales are increasing their share</i>	4
<i>Postal sales have dropped substantially - have they reached the bottom?</i>	4
<i>Aggregators continue to grow general insurance sales, but have not broken through for banking</i>	4
<i>Non-financial commercial partners have grown their share of sales, driven by specific products...</i>	5
<i>... but not-for-profit affinity partners have had little impact outside trade associations and unions</i>	5
<i>Worksite distribution is strong for pensions and health-related insurance</i>	5
<i>Banks and building societies have lost a significant share of sales both as direct providers...</i>	6
<i>... and as distributors of other products, outside packaged accounts</i>	6

<i>UK small business financial services research publications</i>	13
2.0 CHANNEL COMPARISONS	14
Introduction	15
Overall customer take-up rates, 2009	16
<i>Four products are held by more than half of all respondents</i>	16
Available customer base, 2009	18
<i>The largest markets are driven by high levels of switching, not by new customers</i>	18
<i>... except for products with specific characteristics or high growth rates</i>	18
Trends in switching behaviour, 2005, 2007 and 2009	21
<i>Switching rates have fallen for lending products when compared to insurance and savings</i>	21
<i>The credit crisis has reduced switching because lenders have ceased to chase new business</i>	21
<i>... but given the chance, consumers are still becoming less loyal</i>	22
Distribution interfaces - 2009, 2007, 2005 and all previous years compared	25
Overview	25
<i>Internet and outbound telephone sales are the two growing distribution interfaces</i>	25

Face-to-face environment	27
Six products are taken out face-to-face by more than half of all customers.....	27
Face-to-face distribution is becoming irrelevant for core general insurance products.....	27
Internet	29
Major insurance products and cards are taken out online by most consumers.....	29
Personal accident and private medical insurance distribution go against this trend.....	29
Inbound telephone	31
Inbound telephone sales have a growing role in specific niches.....	31
Outbound telephone	33
Personal accident insurance is distributed by outbound calling ahead of other interfaces.....	33
Outbound telephones sales are increasing their share of sales for 19 out of 28 products.....	33
Post	35
Will postal sales grow their share of sales in the future?.....	35
Distribution channels - 2009, 2007, 2005 and all previous years compared	37
Overview	37
Distribution has shifted to online aggregators and non-financial commercial partners.....	37
... squeezing commission income for banks and building societies amid the credit crisis.....	37
Direct sales	39
Savings products are dominated by the direct channel, but this has weakened a little.....	39
... while direct providers are successfully fighting back for cards and travel products.....	39
Advisers, brokers and aggregators	41
<i>Financial advisers, and loan, mortgage and insurance brokers</i>	41
Loan and mortgage brokers have increased their share of a shrinking market.....	41
... while financial advisers have lost ground for core life and pensions products.....	41
... and general insurance brokers' share of sales may have bottomed out.....	41
<i>Online aggregators</i>	43
Aggregators' strength in core general insurance products has not extended to banking.....	43
Not-for-profit affinity groups	45
<i>Automotive clubs</i>	45
Car clubs play a limited role even in automotive-related financial services.....	45
<i>Charities</i>	47
Credit card sales by charities lag behind the frequency with which they offer them.....	47
<i>Educational institutions</i>	49
Growth in this channel comes from a very low point, and needs time to consolidate a customer base.....	49
<i>Professional and trade associations</i>	51
Pensions and health-related insurance are the leading products for this channel.....	51
<i>Trade unions</i>	53
Although active as affinity partners in many areas, the influence of trade unions is limited.....	53
Financial partners	55
<i>Banks and building societies (acting as intermediaries)</i>	55
The credit crisis has reduced the share of business held by banks and building societies.....	55
Packaged accounts are responsible for their high share of sales in mobile telephone insurance.....	55
<i>Credit card companies (acting as intermediaries)</i>	57
Niche insurance products may offer a better opportunity than mainstream but commoditized lines.....	57
<i>Insurance companies (acting as intermediaries)</i>	59
Insurers up-sell from their core policies rather than cross-sell unrelated financial products.....	59
Non-financial commercial partners	61
<i>Automotive associations</i>	61
The brand strength of automotive associations has not extended to other financial services.....	61
<i>Car dealers and manufacturers</i>	63
Car finance contracts have been popular through this channel as other lenders have weakened.....	63
... but three major car manufacturers have discontinued their co-branded credit cards.....	63
<i>Catalogue and other retailers</i>	65

CHANNEL METRICS: CONSUMER DISTRIBUTION TRENDS IN UK FINANCIAL SERVICES

The share of new customers of catalogue and other retailers is higher for prepaid cards than for credit cards.....	65
<i>Estate agents</i>	67
Mortgages are the key product for estate agents, supplemented by home insurance.....	67
<i>Football and other sports clubs</i>	69
A wide range of financial products are offered by clubs, but uptake of them is low.....	69
<i>Loyalty schemes</i>	71
Pet, accident and health insurance are the strongest areas for loyalty schemes	71
<i>Magazine, newspaper and other media entities</i>	73
A wide range of products are on offer, although only two have a significant share of sales	73
<i>The Post Office</i>	75
Travel-related products are the main areas of distribution strength of the Post Office.....	75
<i>Supermarkets</i>	77
An increased emphasis on financial services has not led to a greater share of sales overall.....	77
... but prepaid cards and travel money are promising areas for development	77
<i>Utility (electricity, gas and water) companies</i>	79
Utilities are losing share of sales for home emergency insurance, their only significant product.....	79
<i>Sector-specific distribution channels</i>	81
As distribution spreads across a multitude of channels, specialists are losing their share of sales..	81
Travel agents and tour operators have made progress in selling annual travel insurance	81
<i>The worksite</i>	83
The worksite channel has increased its share of sales for core products since 2007	83
Employer funding is more common for pensions than for protection policies.....	83
3.0 PRODUCT ANALYSIS	86
Introduction	87
<i>Motor insurance</i>	89
Switching rates and brand new sales - 2009	89
Switching rates are stable but high for motor insurance.....	89
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	90
Growth in online sales is slowing, as this interface reaches saturation point	90
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	92
<i>Overview</i>	92
Direct sales by insurance companies held their ground between 2007 and 2009	92
<i>Detailed analysis</i>	94
Online aggregators have taken market share at the expense of all other major channels	94
Data tables	96
<i>Breakdown recovery insurance</i>	98
Switching rates and brand new sales - 2009	98
The annual switching rate appears to be increasing for this form of insurance	98
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	99
The Internet is continuing to gain ground as a distribution interface.....	99
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	101
<i>Overview</i>	101
Direct sales by automotive associations constitute a shrinking market.....	101
<i>Detailed analysis</i>	103
Policies packaged or bundled on a wholesale basis account for a high proportion of this market .	103
Data tables	105
<i>Extended warranties for cars</i>	107
Switching rates and brand new sales - 2009	107
The switching market is nearing the same size as the new extended warranty market.....	107
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	108
Face-to-face sales remain the most important interface for extended warranties	108

Distribution channels - 2009, 2007, 2005 and all previous buyers compared	110
<i>Overview</i>	110
Aggregators and brokers are winning market share from non-for-profit affinity groups	110
<i>Detailed analysis</i>	112
Car makers and online aggregators are the rising channels for extended warranties for cars	112
Data tables	114
Household insurance	116
Switching rates and brand new sales - 2009	116
An increase in switching has more than compensated for a drop in sales to new buyers	116
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	117
The Internet and outbound telephone sales are in the ascendant.....	117
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	119
<i>Overview</i>	119
Financial partners' gains in household insurance were reversed between 2007 and 2009.....	119
<i>Detailed analysis</i>	121
Online aggregators now hold over a third of sales to switchers and new buyers	121
Data tables	123
Home emergency insurance	125
Switching rates and brand new sales - 2009	125
The annual switching rate recorded for 2009 is almost identical to that for 2005	125
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	126
Patterns in interface usage are driven by different home emergency insurance formulae	126
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	128
<i>Overview</i>	128
Most sales of home emergency insurance occur on an intermediated basis	128
<i>Detailed analysis</i>	130
The share of sales of electricity, gas and water companies is clearly under intense pressure	130
Data tables	132
Annual travel insurance	134
Switching rates and brand new sales - 2009	134
Annual travel insurance is characterized by a high switching rate.....	134
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	135
Online customers are more likely to switch policy than those using other interfaces	135
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	137
<i>Overview</i>	137
Packaging with added value bank accounts is a very significant feature of this market	137
<i>Detailed analysis</i>	139
The Post Office is one of the largest specific distributors of annual travel insurance	139
Data tables	141
Single trip travel insurance	143
Switching rates and brand new sales - 2009	143
Single trip travel insurance is characterized by an extremely high switching rate	143
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	144
Close to three quarters of single trip travel policies are bought via the Internet.	144
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	146
<i>Overview</i>	146
... with online insurance aggregators and brokers accounting for a significant proportion of this ..	146
<i>Detailed analysis</i>	148
Traditional affinity and corporate partners find the going tough in a fragmented market.....	148
Data tables	150
Pet insurance	152
Switching rates and brand new sales - 2009	152
The annual switching rate in 2009 remained little changed from 2007	152
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	153

CHANNEL METRICS: CONSUMER DISTRIBUTION TRENDS IN UK FINANCIAL SERVICES

The distribution share of postal sales has shrunk consistently over time	153
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	155
<i>Overview</i>	<i>155</i>
The distribution share of insurance aggregators and brokers appears to have reached a plateau	155
<i>Detailed analysis.....</i>	<i>155</i>
Distribution systems for pet insurance are becoming increasingly fragmented	157
Data tables	159
<i>Mobile telephone insurance</i>	<i>161</i>
Switching rates and brand new sales - 2009.....	161
The annual switching rate recorded for 2009 is similar to that for both 2005 and 2007	161
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared.....	162
Patterns in interface usage are driven in part by a shift towards wholesale distribution.....	162
Distribution channels - 2009, 2007, 2005 and all previous buyers compared.....	164
<i>Overview</i>	<i>164</i>
Banks, through packaged accounts, and mobile retailers and operators dominate this market....	164
<i>Detailed analysis.....</i>	<i>166</i>
Packaged policies are accounting for a progressively higher market share overall	166
Data tables	168
<i>Extended warranties for electrical and electronic appliances.....</i>	<i>170</i>
Switching rates and brand new sales - 2009.....	170
Once bought, very few customers switch their warranty to an alternative provider	170
Distribution interfaces - 2009, 2007 and all previous buyers compared.....	171
Face-to-face sales remain the most important distribution interface in this market	171
Distribution channels - 2009, 2007 and all previous buyers compared	173
<i>Overview</i>	<i>173</i>
Channels other than manufacturers and retailers command only a limited share of this sector....	173
<i>Detailed analysis.....</i>	<i>175</i>
Retailers appear to be outperforming manufacturers in this market.....	175
Data tables	176
<i>Life insurance.....</i>	<i>178</i>
Switching rates and brand new sales - 2009	178
Fewer customers switch provider than take out a new life insurance policy	178
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared.....	179
Face-to-face and inbound telephone sales have declined since 2007.....	179
Distribution channels - 2009, 2007, 2005 and all previous buyers compared.....	181
<i>Overview</i>	<i>181</i>
Distribution has moved from direct sales to a multitude of partners, especially commercial ones .	181
<i>Detailed analysis.....</i>	<i>183</i>
Life insurance distribution has fragmented, with no single channel in the ascendant	183
Data tables	185
<i>Critical illness insurance.....</i>	<i>187</i>
Switching rates and brand new sales - 2009.....	187
One consumer in seven holds critical illness insurance	187
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared.....	188
Distribution has migrated from face-to-face sales to outbound telephone sales	188
Distribution channels - 2009, 2007, 2005 and all previous buyers compared.....	190
<i>Overview</i>	<i>190</i>
Affinity and partnership channels have gained share substantially since 2007	190
<i>Detailed analysis.....</i>	<i>192</i>
The complexity of critical illness insurance has limited the growth of aggregation	192
Data tables	194
<i>Private medical insurance.....</i>	<i>196</i>
Switching rates and brand new sales - 2009.....	196
A small increase in the annual switching rate was registered for 2009	196

Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	197
There is strong evidence for growth in inbound telephone sales of private medical insurance	197
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	199
<i>Overview</i>	199
The results suggest that a higher share of sales than ever is being realised through the	
worksite.....	199
<i>Detailed analysis</i>	201
... with other specific distribution channels related to employment also apparently faring well	201
Funding methods for policies acquired through the worksite	203
In around a half of cases, employers fund the entire cost of private medical cover themselves	203
Data tables	204
Dental insurance	206
Switching rates and brand new sales - 2009	206
New or switching customers made up over one in five of all customers in 2009.....	206
Distribution interfaces - 2009 and all previous buyers compared	207
Inbound and outbound telephone sales are moving up at the expense of face-to-face	
transactions.....	207
Distribution channels - 2009 and all previous buyers compared	209
<i>Overview</i>	209
Sales of dental insurance are split among a fairly broad range of partner types	209
<i>Detailed analysis</i>	211
The distribution share of dentists appears to be under pressure from competing channels.....	211
Funding methods for policies acquired through the worksite	213
For worksite-distributed dental insurance, funding is mostly by the employees themselves	213
Data tables	214
Health and hospital cash plans	216
Switching rates and brand new sales - 2009	216
Annual switching rates are comparatively low for customers with health or hospital cash plans....	216
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	217
Sales split on a comparatively even basis between the five competing distribution interfaces.....	217
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	219
<i>Overview</i>	219
Worksite marketing and other partner channels squeeze the distribution share of direct sales	219
<i>Detailed analysis</i>	221
Various types of affinity and corporate partner are active as distributors in this market.....	221
Funding methods for policies acquired through the worksite	223
Almost half of customers acquiring these policies through the worksite pay the full cost	
themselves	223
Data tables	224
Personal accident insurance	226
Switching rates and brand new sales - 2009	226
The annual switching rate recorded a minor increase in 2009	226
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	227
Outbound telephone sales of personal accident insurance are growing strongly.....	227
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	229
<i>Overview</i>	229
Excluding the worksite, sales are split quite evenly across the other five generic channels	229
<i>Detailed analysis</i>	231
Banks and building societies achieved a significant distribution share across all years surveyed .	231
Data tables	233
Mortgages	235
Switching rates and brand new sales - 2009	235
Both new mortgage lending and remortgaging have fallen sharply relative to 2005 and 2007	235
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	236

The use of distribution interfaces by mortgage borrowers shows relatively little variation over time 236

Distribution channels - 2009, 2007, 2005 and all previous buyers compared 238

Overview 238

Prior to 2009, most mortgages were taken out directly from the ultimate lenders... 238

Detailed analysis..... 240

... although the evidence of more recent years shows a clear shift towards mortgage brokers.... 240

Data tables 242

Mortgage payment protection insurance 244

Switching rates and brand new sales - 2009..... 244

Both switching rates and sales to new customers were lower in 2009 than in 2007 244

Distribution interfaces - 2009, 2007 and all previous buyers compared..... 245

Face-to-face sales maintain their share, while remote sales slowly migrate to the Internet..... 245

Distribution channels - 2009, 2007 and all previous buyers compared 247

Overview 247

Distribution has become less concentrated, with traditional channels losing market share 247

Detailed analysis..... 249

Direct sales by insurers and online aggregators have made substantial gains in market share 249

Data tables 251

Personal loans 253

Switching rates and brand new sales - 2009..... 253

The general availability of personal loans has fallen sharply relative to 2005 and 2007 253

Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared..... 254

Online loan sales lost ground to face-to-face distribution during 2009 254

Distribution channels - 2009, 2007, 2005 and all previous buyers compared..... 256

Overview 256

The distribution of personal loans is largely dominated by two generic channel categories... 256

Detailed analysis..... 258

... albeit a range of affinity and corporate partner channels also have some presence in this market..... 258

Data tables 260

Loan payment protection insurance 262

Switching rates and brand new sales - 2009..... 262

New sales of loan payment protection insurance have fallen dramatically 262

Distribution interfaces - 2009, 2007 and all previous buyers compared..... 263

The upselling rate for loans to loan payment protection insurance is only slightly higher face-to-face 263

Distribution channels - 2009, 2007 and all previous buyers compared 265

Overview 265

Banks and building societies have lost market share to all other channels 265

Detailed analysis..... 267

Online aggregators now hold over a third of sales to switchers and new buyers 267

Data tables 269

Car finance contracts..... 271

Switching rates and brand new sales - 2009..... 271

New car finance contracts have fallen with the recession..... 271

Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared..... 272

Though face-to-face sales predominate, a substantial proportion of sales are made remotely..... 272

Distribution channels - 2009, 2007, 2005 and all previous buyers compared..... 274

Overview 274

Traditional distribution channels have increased their share of sales..... 274

Detailed analysis..... 276

Car dealerships held a majority of this market in 2009..... 276

Data tables 278

Credit cards 280

Switching rates and brand new sales - 2009	280
Switching rates have fallen as lenders changed strategy in the recession	280
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	281
Internet sales have levelled off, while the post is now the least important interface	281
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	283
<i>Overview</i>	283
Non-financial commercial partners are neck-and-neck with financial partners, for the first time	283
<i>Detailed analysis</i>	285
Catalogue and other retailers distributed as many new cards as supermarkets in 2009	285
Data tables	287
Prepaid cards	289
Switching rates and brand new sales - 2009	289
New customers in 2009 outnumbered those holding a prepaid card taken out before that year....	289
Distribution interfaces - 2009 and all previous years compared	290
The Internet accounts for a majority of sales, and has grown at the expense of inbound telesales.....	290
.....	290
Distribution channels - 2009 and all previous years compared	292
<i>Overview</i>	292
Direct sales accounted for nearly a half of cards acquired by switchers and new buyers in 2009 .	292
<i>Detailed analysis</i>	294
Non-financial commercial partners are much more important distributors than online	294
aggregators	294
Data tables	296
Travel money	298
Switching rates and brand new sales - 2009	298
Consumers display limited loyalty to travel money providers.....	298
Distribution interfaces in 2009	299
Face-to-face transactions dominate the distribution of travel money	299
Distribution channels in 2009	301
<i>Overview</i>	301
Switchers and new buyers prefer foreign exchange companies to banks and building societies ..	301
<i>Detailed analysis</i>	303
The Post Office is the single most important specific channel for travel money	303
Data tables	305
Interest-bearing savings deposits	307
Switching rates and brand new sales - 2009	307
Nearly a third of consumers with this product opened a savings account in 2009	307
Distribution interfaces - 2009, 2007 and all previous buyers compared	308
Banks and building societies have successfully pushed savings accounts away from the branch	308
Distribution channels - 2009, 2007 and all previous buyers compared	310
<i>Overview</i>	310
Direct sales continue to be the most important channel for savings accounts.....	310
<i>Detailed analysis</i>	312
<i>Financial advisers are holding their own against online aggregators</i>	312
Data tables	314
Cash ISAs	316
Switching rates and brand new sales - 2009	316
Six out of ten customers who took out a new cash ISA in 2009 already held another cash ISA....	316
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	317
Online cash ISA sales are growing, but face-to-face distribution remains dominant.....	317
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	319
<i>Overview</i>	319
Direct sales held their market share in 2009, after losing ground between 2005 and 2007	319
<i>Detailed analysis</i>	321

CHANNEL METRICS: CONSUMER DISTRIBUTION TRENDS IN UK FINANCIAL SERVICES

Financial advisers directed customers to cash ISAs in 2009	321
Data tables	323
Child Trust Funds	325
Switching rates and brand new sales - 2009	325
Six out of ten customers who took out a new fund in 2009 already held another Child Trust Fund	325
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	326
Child Trust Fund sales shifted from the post to face-to-face distribution between 2007 and 2009	326
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	328
<i>Overview</i>	<i>328</i>
Two thirds of Child Trust Funds are sold directly by a variety of financial companies	328
<i>Detailed analysis</i>	<i>330</i>
The Post Office has a larger market share for Child Trust Funds than for simpler savings products	330
Data tables	332
Personal and stakeholder pensions	334
Switching rates and brand new sales - 2009	334
More than a quarter of respondents have a personal or stakeholder pension	334
Distribution interfaces - 2009, 2007, 2005 and all previous buyers compared	335
Face-to-face distribution no longer accounts for the majority of pension sales	335
Distribution channels - 2009, 2007, 2005 and all previous buyers compared	337
<i>Overview</i>	<i>337</i>
Not-for-profit affinity groups recorded the largest gain in distribution share in 2009	337
<i>Detailed analysis</i>	<i>339</i>
Aggregators are gaining share from financial advisers by policies, but perhaps not by premiums	339
Funding methods for pensions acquired through the worksite	341
The vast majority of pensions sold via the worksite are funded jointly by employer and employee	341
Data tables	342
4.0 APPENDIX	344
Research sample and mechanics	345
Research methodology and structure	347

GRAPHICS / TABLES

The financial services distribution channel universe - specific distribution channels and distribution interfaces	10
Overall take-up rates for 28 financial products and services, 2009	17
Available customer base for 28 financial products and services, 2009	19
Available customer base for 28 financial products and services (data)	20
Switching rates for eight banking and related insurance products and services, 2005, 2007 and 2009	22
Switching rates for 21 insurance, savings and investment products and services, 2005, 2007 and 2009	23
Switching rates for 28 financial products and services, 2005, 2007 and 2009 (data)	24
Analysis of distribution interfaces used for acquiring 28 financial products and services, 2009 and all previous years	26
