Overview.....	16
<i>The total number of expatriates worldwide was in excess of 66 million in 2017.....</i>	16
<i>... and has seen rapid growth since 2013.....</i>	18
<i>Expatriates are expected to account for over 1% of the global population by 2021.....</i>	20
Expatriate categories.....	21
Individual workers.....	21
<i>Saudi Arabia is the largest inbound expatriate market for the individual worker category.....</i>	21
<i>... while expatriates from India constitute the largest expatriate group resident abroad in this segment.....</i>	23
Corporate and other transferees.....	25
<i>Expatriate transferees located in the UK and the US make up over 35% of this market.....</i>	25
<i>... albeit with China ranked third on this measure and catching up fast.....</i>	25
<i>India is ahead of all three countries as an outbound country for this type of expatriate.....</i>	27
Students.....	29
<i>English-speaking countries tend to host the most expatriate students.....</i>	29
<i>... with China especially prominent as an outbound country for expatriate students.....</i>	31
Retired expatriates.....	33
<i>The US and Spain have consistently been the most prominent destinations for retired expatriates... ..</i>	33
<i>... mainly as a result of a large population of retired expatriates from Canada, the UK and Germany.....</i>	35

<i>... although its growth rate is likely to be overtaken by that of Qatar up to 2021 .....</i>	<i>44</i>
<i>Individual workers make up the majority of the world's expatriate population... ..</i>	<i>49</i>
<i>... although in some countries they account for less than half of the total .....</i>	<i>49</i>
<i>At a global level, dependents have constituted the most rapidly growing category of expatriates .....</i>	<i>51</i>

<i>... although Canada and Portugal feature the largest number of outbound expatriates per capita .....</i>	<i>58</i>
